Post-Approval Monitoring

An important part of Purdue University's program for the care and use of animals used in research, teaching, or testing, is the meaningful monitoring of the protocols that have been approved by the IACUC. Your protocol has been selected for post approval monitoring. Please answer the following questions prior to the post approval monitoring visit.

Please type the PI name, protocol name, and number.

Please type the name of the individual completing this questionnaire.

Does principal investigator and other project personnel (working without direct supervision) have accurate qualifications documented in the IACUC office via Animal Care and Use Qualification Forms?

○ Yes

○ No

Are you currently conducting animal research or using animals for teaching purposes?

○ Yes

○ No

Where are your research animals currently housed?

[   ]

Are number of animals used recorded and kept current?

○ Yes

○ No
