UNIVERSITY SENATE
Seventh Meeting, Monday, 18 April 2005, 2:30 p.m.
Room 302, Stewart Center

AGENDA

1.	Call to order	Professor William L. McBride
2.	Approval of Minutes of 21 March 2005	
3.	Acceptance of Agenda	
4.	Remarks by the President	President Martin C. Jischke
5.	Report of the Chairperson	Professor William L. McBride
6.	Resume of Items Under Consideration by Various Standing Committees	For Information Professor Herbert L. Weith
7.	Question Time	
8.	University Senate Document 04-13 Nominees for University Senate Standing Committees	For Action Professor Charles E. Kline
9.	University Senate Report 04-1 Annual Report of the Athletic Affairs Committee	For Information Professor John G. Graveel
10.	New Business	
11.	Memorial Resolutions	
12.	Adjournment	

Note: The annual reports of the chairs of the Educational Policy Committee, the Faculty Affairs Committee, the Resources Policy Committee and the Student Affairs Committee will be found in Appendix C.

UNIVERSITY SENATE
Seventh Meeting, Monday, 18 April 2005, 2:30 p.m.
Room 302, Stewart Center

Present: *William L. McBride (Chairperson of the Senate) presiding, Professors Kristine J. Anderson, Carol L. Baird, Alan M. Beck, Rodney J. Bertolet, JennieMarie Blankert, Richard E. Blanton, Mark D. Bowman, Joseph W. Camp Jr. (Secretary of Faculties and Parliamentarian), Yan Chen, Patrick E. Connolly, John M. Connor, Susan E. Conners, John J. Contreni, Terry L. Davidson, Sharon DeVaney, Otto C. Doering III, Harold G. Donnelly, Linda M. Duttlinger, Janusz Duzinkiewicz, Wendy S. Flory, Greg N. Frederickson, Eric S. Furgason, Alten Grandt, John G. Graveel, Mark A. Green, James P. Greenan, Sally A. Hastings, Nathan W. Harter, L. Tony Hawkins, R. Neal Houze, Steven D. Johnson, Vicki J. Killion, Charles E. Kline, Christine M. Ladisch, Andrew U. Luescher, Sally Mason, Sean McDeavitt, David R. McMillin, Mark Morgan, P. Jane Morris (Sergeant at Arms), Rab Mukerjea, Hisao Nakanishi, David E. Nichols, Morgan R. Olsen, Patrice D. Rankine, Thomas B. Robinson, Alysa C. Rollock, John R. Rousselle, Robert Sabol, John A. Sautter, Dan E. Schendel, Aaron Schnur, Richard Schweickert, Keith E. Schwingendorf, Deb Sheets, Timothy L. Skvarenina, Glenn G. Sparks, David L. Stanley, Terry S. Stewart, A. Charlene Sullivan, Alain S. Togbe, Ralph Webb, H. Lee Weith, Sirje Laurel Weldon, Clarence W. Wilkerson, David J. Williams, G. Thomas Wilson, and William J. Zinsmeister,*

Absent: *President Martin C. Jischke, Professors Thomas Bauman, Lonnie D. Bentley, Evelyn Blackwood, George M. Bodner, J. Stuart Bolton, James R. Bottum, Shorna R. Broussard, Natalie J. Carroll, Richard O. Fanjoy, David R. Gaskell, Richard F. Ghiselli, April J. Ginther, Gabriele F. Giuliani, Bruce Hamaker, William A. Harper, Wayne W. Kjonaas, Daniel J. Kovenock, Thomas Kuczek, C. S. George Lee, Morris Levy, Cary A. Mitchell, Cindy H. Nakatsu, Robert E. Novak, Michael R. Oliver, Daryl L. Orth, Frank V. Paladino, Richard C. Penney, Barry Pittendrigh, Laura J. Pyrak-Nolte, J. Paul Robinson, Kenneth R. Robinson, William T. Robinson, George E. Rogers, Farshid Sadeghi, Bernard Y. Tao, Phillip J. VanFossen, Jacqueline Walcott-McQuigg, Whitney Walton, Yuehwern Yih, and Michael Zoltowski.*

Guests: *Joe Bennett, Charles Bouman, Christine Corum, Larry DeBoer, Scott Feld, Ed Howat, Julie Huetteman, Doug Jacobs, Ravi Krishnan, Julie Mariga, Mark Moriarty, Amy Raley, Tom Reifer, Jie Shen, Louis Sherman, Ben Steckler, and Volker Thomas.*

1. The meeting was called to order by the chairperson of the senate, Professor William McBride at 2:35 p.m.

2. The minutes of the meeting of March 2005 were approved as distributed.

3. The agenda was accepted as proposed.

4. President Martin C. Jischke was not present at the meeting and no remarks were available.

5. Professor William McBride presented the report of the chairperson (see Appendix A). Following his remarks, Professor McBride excused himself and Vice Chairperson Timothy Skvarenina presided for the remainder of the meeting.

6. Professor H. Lee Weith, the chair of the Steering Committee presented, for information, the Resume of Items Under Consideration by Various Standing Committees (See Appendix B).

7. At question time it was reported that no questions had been submitted in writing and the chair invited questions from the floor. No questions were forthcoming.

8. Professor Charles E. Kline presented, for action, University Senate Document 04-13, *Nominees for the University Senate Standing Committees*. For the eight vacancies on the Educational Policy Committee, he proposed Professors Ann Astell (3), George Bodner (3), Richard Fanjoy (2), Scott Feld (3), Olayiwola Adeola (3), Mark Moriarty (3), Robert Montgomery (3), and Christopher Ray (1); for the six vacancies on the Faculty Affairs Committee, he proposed Professors William Harper (3), Nathan Harter (2), Thomas Kuczek (1), Hisao Nakanishi (1), Cindy Nakatsu (1), and David Williams (2); for the three vacancies on the Student Affairs Committee, he proposed Professors Larry DeBoer (3), Jay Gephart (3), and Michael Leasure (3); finally, for the three vacancies on the University Resources Policy Committee, he proposed Professors Thomas Bauman (2), Gregory Frederickson, (2), and Philip VanFossen (2); where in each case the number in parentheses following the name represents years of service. The motion was seconded and with no additional nominations coming from the floor, the aforementioned were elected by acclamation.

9. Professor John Graveel presented, for information, University Senate Report 04-1, *Report from the Athletic Affairs Committee*. Professor Graveel summarized the report and responded to questions from the floor.

10. There was no new business.

11. There were no memorial resolutions.

12. The meeting adjourned at 3:20 p.m.

Appendix A
18 April 2005

REPORT TO THE UNIVERSITY SENATE - PROFESSOR WILLIAM L. MCBRIDE

This will be my final report to the Senate as your Chair, and in fact I shall turn over the task of presiding over the rest of the meeting to Vice-Chair Tim Skvarenina, as I must leave immediately on a long trip. I think that, whatever your evaluation of my term of office may be, the Senate will be in capable hands next year in the persons of Tim as Chair and Bernie Tao as at once Vice-Chair and Chair-Elect. I think that our successful initiative of constitutional reform in order to guarantee Senate leadership succession, which you voted in early in this academic year, was perhaps the single most important achievement of my term. For we have a generally hard-working Senate leadership core, and this new guarantee of succession from Vice-Chair to Chair constitutes, I think, a device for further ensuring its cohesion and continuity, over and above that which is so capably maintained now by Secretary of Faculties Joe Camp – as it used to be, though in a quite different style, by his predecessor, Sol Gartenhaus.

I do not intend to review the Senate's other accomplishments of the year, such as they may have been. As one who has been a Senator off and on since the mid-seventies, I can say that this has been a **relatively** interesting year, though not the **most** interesting in my experience. After all, the scope of the Senate's powers is comparatively limited, and in any case I think that the maxim "If it ain't broke don't fix it" is an extremely sound one, to which we should continue to adhere. The Senate, along with its active committees, both embodies and defends the principle of faculty governance, but of course this does not necessarily entail maintaining a conflictual relationship with the Administration, or with any other group or institution, as long as matters are proceeding comparatively smoothly. And it has been my perception, right or wrong, that this has been the case. As I mentioned at the conclusion of my report last month, I have some fears, hopefully unjustified, that this may not continue to be the case in forthcoming years. The greatest object of my fears, as I also indicated, is not the Administration, but rather potential interference by government bodies at all levels. (The Minutes of the March meeting of the Faculty Compensation and Benefits Committee, which I received just before coming over here, provide an example: The final substantive item concerns the possible need for the Senate eventually to pass a resolution in favor of preserving medical coverage for same-sex partners, in light of the challenge to this coverage implied by the General Assembly's recent "anti-gay marriage" legislation.)

As for the Administration, I need and want to express my thanks to President Jischke, to Provost Mason, and to a number of other administrators, some of whom are here as non-voting members of the Senate, whom I won't attempt to name lest I inadvertently miss one of them while mentioning all the others. I have found a great deal of cooperation and support from them. I am by nature and self-training a person very inclined to criticism when I think it justified, and I do not hesitate to say what I think, however unpleasant or confrontational, when it seems appropriate to me. So what I am saying here about my perceptions of the Administration is quite sincere and not at all formulaic or dictated by convention. In this respect I regard myself as being a little too much like one of my favorite characters from Gilbert and Sullivan, the misanthropic King Gama in *Princess Ida*, when he sings:

> Oh, don't the days seem lank and long
> When all goes right and nothing goes wrong;
> And isn't your life extremely flat
> When there's nothing whatever to grumble at?

I have also very much enjoyed my contacts over the past two years with the Purdue Board of Trustees. They are a very committed, congenial, and hard-working group. Let us hope that this will continue to be the case as existing members begin to be replaced at the ends of their terms of office; there are plenty of structurally similar bodies, alas, which border on the dysfunctional, and some that actually attain that condition.

I shall now report on the Board meeting of a week and a half ago, the last that I shall have attended in my official capacity as Chair, since I shall again be away on the occasion of their May meeting, and the end of May is technically the end of my term. I shall be somewhat briefer about it than in the past; in any case, the minutes can be found on the Board's website. One of the most noteworthy facts about the meeting, one which you might be a little more difficult to uncover in the minutes, is that Tim McGinley, the Chair of the Board, was absent for only the first time in his sixteen years on it. My expression, "hard working", certainly applies to him. After the President's introductory remarks, the original order of the agenda was altered so that special recognition and praise could be given to retiring head basketball coach Keady, who was present along with his wife. Three new Distinguished Professorships were ratified: John Cushman as University Distinguished Professor of Earth and Atmospheric Sciences, Anne Smith as Distinguished Professor of Speech, Language and Hearing Sciences in the College of Liberal Arts, and Jerry Woodall as Distinguished Professor of Electrical and Computer Engineering.

There were then two fairly lengthy reports. The first was a four-part follow-up to last year's initial discussion of progress in achieving greater diversity at Purdue, now mandated as an annual presentation, and given this year by Sally Frost Mason (impact of legal decisions, changes in the composition of faculty, staff, and student body, and curricular initiatives); Alysa Rollock (staff make-up and the identification of areas of shortfall in meeting so-called occupation codes); Morgan Olsen (procurement and contracting issues); and Morgan Burke (athletics). The second was Morgan Olsen's analysis of the condition of physical facilities, showing how much we are falling behind in maintenance and rehabilitation because of the dearth of funds. This report received considerable publicity in the newspapers, and indeed the gloomy impact on the audience of the details that Executive Vice-President Olsen provided was almost palpable. The rest of the program was comparatively brief: my report as Faculty Representative, Aaron Schnur's report as Student Representative, reports by North Central campus Chancellor James Dworkin, Purdue University Calumet Faculty Senate President Judith Hack, and Purdue Fort Wayne Student government President Chris Yahne, and then the approval of the reports of the sub-committees of the Board for Academic Affairs, Physical Facilities, Finance, and Audit and Insurance, respectively. Of course, the first included a matter of particularly great interest to us on the faculty, namely, the ratification of new promotions for 2005-06. In conclusion, President Jischke read, as usual, the names of recent donors who merited being singled out for special appreciation.

That is all that I have to say, then. I will conclude as simply as possible by thanking all of you, my fellow Senators, for having contributed to what I hope most of you regard, as I do, as having been a successful Senate year.

Appendix B
18 April 2005

TO: University Senate
FROM: Herbert L. Weith, Chairperson, Steering Committee
SUBJECT: Resume of Items Under Consideration by the Various Standing Committees

STEERING COMMITTEE Herbert L. Weith, Chairperson
weith@purdue.edu

The primary responsibility of the Steering Committee is the organization and distribution of the agenda for each meeting of the University Senate. This committee also receives communications from any faculty member or group of members and directs such communications to appropriate committees or officers for attention.

ADVISORY COMMITTEE William L. McBride, Chairperson of the Senate
wmcbride@purdue.edu

The responsibility of the University Senate Advisory Committee is to advise the President and/or Board of Trustees on any matter of concern to the faculty.

NOMINATING COMMITTEE Charles E. Kline, Chairperson
chuck@purdue.edu

The major task of the Nominating Committee comes in the spring in making nominations for senate and University committees. Nominations are made at other times to fill vacancies as they occur.

EDUCATIONAL POLICY COMMITTEE George M. Bodner, Chairperson
gmbodner@purdue.edu

1. Final exam scheduling
2. Transfer credit
3. Distance learning courses

FACULTY AFFAIRS COMMITTEE William J. Zinsmeister, Chairperson
wjzins@purdue.edu

1. Grade Appeals Process
2. Committee on Informetrics
3. Follow-up on faculty development review
4. Tenure Promotion Process

STUDENT AFFAIRS COMMITTEE Terry L. Davidson, Chairperson
davidson@psych.purdue.edu

1. Review of the Student Bill of Rights
2. Follow-up concerning the Student Conduct Code
3. Follow-up concerning the OnePurdue system
4. Follow-up with Student Services Office concerning the proposed Disciplinary Process
5. Currently examining the proposed Exam Proctoring system

UNIVERSITY RESOURCES POLICY COMMITTEE John R. Rousselle, Chairperson
rousselj@purdue.edu

1. Faculty input into the budget process
2. Review of Faculty Committees

Vice Chair of the Senate, Timothy L. Skvarenina, tskvaren@purdue.edu
Secretary of the Senate, Joseph W. Camp, Jr.
University Senate Minutes; http://www.purdue.edu/usenate

Appendix C
18 April 2005

ANNUAL REPORTS OF COMMITTEE CHAIRPERSONS

University Senate Educational Policy Committee
Annual Report
2004-2005

This year, the EPC took on the task of reinvigorating two of the committees that were supposed to report to EPC, but which were moribund in recent years: Academic Organization and Superior Students. Superior Students has taken on the task of working with the University Honors Program to develop tools for the evaluation of the UHP and to participate in collecting data for said evaluation. The task of considering these data and reporting to the University Senate will remain within the purview of the EPC. Suggestions for revision of the description of the responsibilities of the Superior Students committee and for a change in the name of that committee will be brought before the University Senate next Fall.

The primary issue that occupied the EPC this year was a consideration of the tightly coupled issues of transfer credit, course equivalency, and distance education. A set of Statements of Principles About Distance Education Transfer Credit was developed, which will be brought to the University Senate next Fall.

George Bodner
Chair, Educational Policy Committee, 2004-2005

University Senate Faculty Affairs Committee
Annual Report
2004-2005

The Faculty Affairs Committee (FAC) met 8 times during the 2004-2005 academic year. This report is a summary of the business brought before the FAC.

Grade appeals: Following proposed changes to the timing of the initiating a grade appeal were submitted by Professor Bodner at the end of the 2003 academic year, the FAC prepared a document to be presented to the Senate. It was assumed that the proposed changes would be quickly approved by the Senate. Unfortunately, as the chair (Zinsmeister) began to prepare the document for submission to the Senate, it became apparent that there were a number of problems concerning access and availability of grade appeal procedures to both students and faculty members. Although application of grade appeal procedures, as mandated by University Senate Document 73-14, should be implemented uniformly across the campus, it was discovered that the implementation of the procedures varied greatly between schools. It was clear that dissemination of the procedures to chairs of campus grade appeal committees, and student councilors also varied considerably. As a consequence, there is considerable confusion about procedures concerning grade appeals.

During the January 2004 Senate meeting, proposed changes in the initiation and timing of grade appeals were brought up for discussion. There was considerable discussion concerning the proposed changes and the Senate suggested that the FAC revisited the question of the timing

of the initiation of appeals. Following the Senate meeting, FAC decided that since the Grade Appeal process and procedures had not been reviewed since the mid-1970's to ask the Provost to establish an ad hoc committee to review procedures and to recommend solutions to streamlining the process and enhance dissemination of grade procedures to faculty, students and councilors. The ad hoc committee, chaired by Margaret Rowe was formed consisting of Steven Akers, George Bodner, Jonathan Hoggatt, Ann Knupfer, Wallace Morrison, Charlene Sullivan, and William Zinsmeister. During the course of the 2004-2005 academic year the ad hoc committee prepared a document outlining a number of changes and submitted it to the FAC in March for review. Because of a number of items under active consideration, the FAC decided to review the ad hoc report at the beginning of the fall 2005 semester.

Research Track Faculty Positions: During the spring semester 2004, the FAC received comments from several faculty members expressing the need and importance of establishing a Research Track Positions for non-tenure track faculty. The Provost also expressed great concern about the absence of research track faculty positions and its impact on keeping high quality researchers at Purdue University. The Provost provided the FAC with a draft of a document describing Research Tenure Track Positions. The consensus of the FAC was that Purdue University should institute formal Research Track Positions for non-tenured track faculty. The issue was discussed by the Senate during the October and November meeting, but a vote on the issue in November was postponed until January. During the January meeting the establishment of Research Track Positions for non-tenured track faculty was passed by the Senate

Tenure and Promotion Process: The FAC began a review of the current tenure and promotion process and discovered that the promotion process varied widely across campus. It was decided that there should be some degree of campus-wide uniformity in the promotion process. At the same time, it was recognized that cultural differences exist between departments and schools and that these cultural differences should be respected. Initially FAC considered proposing a number of procedural changes that should be standardized campus-wide, such a number of letters of recommendation. Rather proposing a number of changes at one time, it was decided that a more effective approach would be to view this as a long term process and to focus on proposing individual items to the Senate for consideration

The first item we decided to examine was changing the composition of the Primary Committee and to allow tenured associate professors to participate in discussion and voting for tenure of untenured assistant and associate professors. The FAC convened a faculty forum on September 16th to discuss the proposed change to the Primary Committee. Approximately 70 faculty members participated in the forum. A summary of the comments presented during the forum was posted on the University Senate web page. Following the forum, the FAC discussed the issue and felt that it should be presented to the Senate for consideration. The consensus of the FAC was that allowing tenured associate professors to participate in the process would increase communication within departments, demystify the promotion process, and increase diversity of the primary committees. Including tenured associate professors on the Primary committee would also bring Purdue University in line with peer institutions. It was also noted that a number of departments on campus had either already instituted the inclusion of tenured associate professors on their respective primary committees or would do so in the near future. Following extensive discussion during the January Senate meeting, approval of changing the composition of the Primary Committee to included tenured associate professor participation in the discussion and voting on tenured for untenured assistant and associate professors was passed during the February Senate meeting.

Benefits for Retired Adjunct Professors: The FAC was requested to review the procedures for awarding of benefits for retired long term adjunct professors, such as library privileges and parking. The Provost reported that the President wants to award benefits on a case-by-case basis. Since the benefits issue will only affect a couple of professors a year the President did not think there was a need to develop a formal policy. Availability of benefits for retired adjunct professor was discussed during January Senate meeting. Information regarding benefits for retired adjunct professors was placed on the appropriate University web page.

Mentoring: During the spring semester the FAC initiated an examination of mentoring procedures for untenured faculty. It is anticipated that during the fall semester of 2005, a faculty forum will be held to obtain faculty input concerning the current state of mentoring of untenured faculty and what changes should be made to enhance Purdue's mentoring program.

Proposed change to Graduate Policies and Procedural Manual: The Dean of Students presented to the FAC a recommendation by an ad hoc committee that would require a change in Form 23. A graduate student would get one chance at privileged registration and would have to complete the degree requirements by a specified time, probably the eighth week in the case of the fall or the spring term. The FAC approve the proposal in principle and asked the Graduate School to return with a specific proposal.

Faculty Affairs Chair: Chair for 2005-2006 will be Professor Mark T. Morgan, Food Sciences

---

University Senate Resources Policy Committee
Annual Report
2004 – 2005

One of the goals of the University Resources Policy Committee (RPC) was to better understand the larger picture of the resources issue facing the university. To that end, the committee met with University personnel that could help it gain this broad perspective. This group included :

- Larry Fasaro, University Architect presented Purdue's Long Range Plan
- Jim Bottum, VP – Information Technology explained Purdue's IT situation, how ITaP is designed to address the computing needs of Purdue and the University's $73M acquisition of ERP (Enterprise Resource Planning), the software that will replace the current administrative software system.
- James Mullins, Dean of Libraries shared his vision for the Purdue University Library system.
- Brent Bowditch - Assistant Director Human Resource Services, explained the current situation regarding healthcare expenses for Purdue employees.
- Morgen Olsen, ExVP & Treasurer, discussed the University's budget situation.

The committee drafted two Senate Documents :

Document 04-09 <u>Addition of a Graduate Student to the University Library Committee</u>
This was first proposed during 2003-04 but the committee did not act on it until this year. It was proposed with the enthusiastic support of James Mullins, Dean of

Libraries. It was introduced to the Senate and passed by that body in its February meeting.

Document 04-09 Purdue University Smoking Control Policy This proposal was the result of a two year examination of smoking on campus by the RPC. It proposed the following:

Regulations:

1. Purdue is a smoke-free campus except for designated outside smoking areas.
2. The sale of tobacco products is prohibited on University premises.
3. Smoking is prohibited in all University facilities including parking garages, their stairwells and elevators, partially enclosed non-smoking structures and in all University vehicles.
4. Smoking is prohibited in all indoor and outdoor University athletic facilities.
5. Smoking is prohibited within 50 feet of individual(s) taking part in a University sanctioned outdoor event and designated outdoor smoking areas cannot be located within 50 feet of any outdoor group seating facilities, air intakes or building entrances.

This document was introduced in the February meeting of the Senate and passed in the March meeting.

The RPC also received verbal or written reports from committees that report to it.

- Visual Arts Committee : Tom Eismin – Chair
- Architectural & Landscape Design & Planning Committee : W.R. Widmer - Chair
- Library Committee : M. A. Morrison Chair
- Parking & Traffic Committee : H. L Schrank – Chair
- Staff Appeals Board for Traffic Regulations : C. Black - chair

Morris Levy, Professor. in Department of Biological Sciences will chair the RPC in 2005-06.

April 30, 2005

University Senate Student Affairs Committee
Annual Report
2004-2005

The Student Affairs Committee (SAC) met on five occasions during the 2004-2005 academic year. The SAC submitted one document to the University Senate, Document 04-01, the annual report on the academic status of student athletes at Purdue University. This report is prepared and presented each year by the SAC liaison to the Athletic Affairs Committee (ACC).

During 2004-2005, the SAC heard presentations about a variety of programs and topics pertinent to student affairs at Purdue. Tom Robinson, Vice President for Student Services, described the history of Student Services at Purdue, reviewed the status of current Student Services programs and identified new initiatives that are likely to be needed to help students make the most of their experiences at Purdue University. Pablo Malevenda, Associate Dean of Students, reported on student organizations and activities at Purdue. In addition, to describing the oversight of approximately 700 officially recognized student groups, Dean Malevenda commented about the difficulties faced by these groups in communicating their events and activities to the student population at large. The intricacies of the admissions process and enrollment management were described for the SAC by Doug Christiansen, Assistant Vice-President for Enrollment Management and Dean of Admissions, with emphasis on how recent decisions in the courts have impacted on admissions policies at Purdue. In addition, Joyce Hall, Director, Division of Financial Aid, reviewed for the SAC the current scholarship selection process. A main point was that no student is selected for a scholarship at Purdue based solely on exclusive criteria (e.g., test scores, GPA). The SAC also received a report from Susan Prieto-Welch, Director of Counseling and Psychological Services (CAPS). Dr. Prieto-Welch indicated that the demand for services and resultant demands on the staff at CAPS have increased in recent years. The organization and function of the new Office of Student Rights and Responsibilities (OSRR) was summarized for the SAC by Tony Hawkins, Dean of Students, and by Steve Akers, Executive Associative Dean of Students. The mission of the OSRR is to promote responsible conduct among Purdue students and to provide resources and education about student rights. The year concluded with a report from Heather Webb, Student Affairs Specialist, in the Office of the Dean of Students, about the findings of the Academic Integrity Assessment Project. As part of this project, surveys were distributed electronically to both students and faculty, as a means of increasing awareness of integrity issues and of obtaining information that could be used to identify programs and policies that would promote academic integrity on campus. The preliminary findings presented by Ms. Webb will be followed by a complete report next fall.

An on-going project of the SAC has been to complete a video tape titled “Integrity Counts” for use at Boiler Gold Rush and other events. The tape, which was prepared during 2003-2004 by students in an audio-visual arts class was returned this year for additional editing. This editing is expected to be completed by the end of the Spring 2005 semester. In addition, the SAC reviewed current policies on sidewalk canvassing at Purdue and made suggestions for changes. Katie Hanley, a Purdue Student Government (PSG) representative to the SAC discussed these

suggestions with the Director of Buildings and Grounds. The SAC also gave its support to the creation of the new Purdue Graduate Student Government (PGSG) and approved changes in the wording of the University by-laws to reflect the establishment of the PGSG. Furthermore, the SAC voted to deactivate the Financial Aid Subcommittee of the SAC. This subcommittee had not met in several years. In the future, as matters related to financial aid arise, they will be brought to the attention of the full SAC.

In 2005-2006, the chair of the SAC will be April Ginther (ENG). John Graveel will continue as liaison to the ACC. A liaison to the PSG will be named in the fall.

Terry L. Davidson
SAC Chair, 2004-2005

SENATE REPORTS	TITLE	ORIGIN
04-1	Athletic Affairs Committee Report to the University Senate, Spring 2004-05	Athletic Affairs Committee

University Senate Document 04-13
18 April 2005

TO: The University Senate
FROM: University Senate Nominating Committee
SUBJECT: Nominees for University Senate Standing Committees
REFERENCE: Bylaws of the University Senate
DISPOSITION: Election by the University Senate

The Nominating Committee proposes the following slates of nominees for service on the University Senate Standing Committees listed below. The faculty members elected are to serve for the period shown within the parentheses following each name.

A. Educational Policy Committee
For the eight vacancies, the proposed slate of nominees is Professors:

Ann Astell	(3)	English
George Bodner	(3)	Chemistry
Richard Fanjoy	(2)	Aviation Technology
Scott Feld	(3)	Sociology & Anthropology
Olayiwola Adeola	(3)	Animal Sciences
Mark Moriarty	(3)	Management
Robert Montgomery	(3)	Engineering Education
Christopher Ray	(1)	Building Construction Management Technology

B. Faculty Affairs Committee
For the six vacancies, the proposed slate of nominees is Professors:

William Harper	(1)	Health & Kinesiology
Nathan Harter	(2)	Organizational Leadership & Supervision
Thomas Kuczek	(1)	Statistics
Hisao Nakanishi	(1)	Physics
Cindy Nakatsu	(1)	Agronomy
David Williams	(2)	Veterinary Administration

C. Student Affairs Committee
For the three vacancies, the proposed slate of nominees is Professors:

Larry DeBoer	(3)	Agricultural Economics
Jay Gephart	(3)	University Bands
Michael Leasure	(3)	Aviation Technology

D. University Resources Policy Committee
For the three vacancies, the proposed slate of nominees is Professors:

Thomas Bauman	(2)	Botany & Plant Pathology
Gregory Frederickson	(2)	Computer Science
Philip VanFossen	(2)	Curriculum & Instruction

Approving:

Natalie J. Carroll
Charles E. Kline
Patrice D. Rankine
J. Paul Robinson
Glenn G. Sparks
S. Laurel Weldon

Absent:

Linda M. Duttlinger
Gabriele F. Giuliani
Bruce R. Hamaker
Whitney Walton (on leave)

University Senate Report 04-1
18 April 2005

TO: The University Senate
FROM: Athletic Affairs Committee
SUBJECT: Athletic Affairs Committee Report to the University Senate, Spring 2004-05
REFERENCES: University Senate Document 90-31, 22 April 1991
DISPOSITION: University Senate for Information

Purdue University's commitment to the academic and social well being of its student-athletes is focused through the activities of the Athletic Affairs Committee (AAC) and Intercollegiate Athletics (ICA). This report will cover the two regular semesters in the year that has passed since the last report from the AAC: the Spring Semester of 2003-04 and the Fall Semester of 2004-05.

ACADEMIC STATUS OF STUDENT-ATHLETES

During the subject semesters, undergraduate enrollment at Purdue University totaled:

	Spring '03-04	Fall '04-05
Men:	16,548	17,792
Women:	11,538	12,411
Total:	28,086	30,203

Of these enrollments, student-athletes totaled:

Men:	259	271
Women:	199	192
Total:	458	463

One of the primary goals of ICA is to assist all student-athletes in achieving their full scholastic potential. This goal is being accomplished by ICA ensuring that ongoing support and services dedicated to academic excellence are freely available to all student-athletes. The Intercollegiate Athletics strategic planning document containing Vision, Mission, and Goals statements is appended hereto as Appendix 1. That portion of the Goals statement related specifically to academics states: "Student-athletes will be at or above the all-campus grade point average. Graduation rates will be at or above the all-campus average."

Specific objectives related to these goals include achievement of the stated performance levels for both the semester and the cumulative GPAs each semester. Details of the academic performance of student-athletes during the subject semesters, as compared to the corresponding university wide averages, is shown in the table below, including GPAs and other relevant statistics. It is noteworthy that the Fall '04-05 semester was the 15th consecutive semester in which the cumulative GPA of Purdue's student-athletes exceeded the all-campus cumulative GPA.

Student-Athlete Academic Information		
Academic Performance Measures:	Spring '03-04	Fall '04-05
Cumulative GPA		
Student-athletes	2.95	2.98
All-campus	2.93	2.89
Semester GPA		
Student-athletes	2.85	2.89
All-campus	2.89	2.83
Achievement of Semester GPA of 3.0 or higher		
Student-athletes	46.3% (212)	53.8% (249)
All-campus	56.7%	50.9%
Achievement of Academic Honors		
Student-athletes	24.9% (114)	30.2% (140)
Dean's List and Semester Honors	(65)	(81)
Semester Honors only	(39)	(45)
Dean's List only	(10)	(14)
All-campus	30.3%	27.8%
Achievement of perfect 4.0 Semester GPA		
Student-athletes	9.2% (42)	7.8% (36)
All-campus	2.7%	9.2%
Placement on probation		
Student-athletes	4.6% (21)	5.0% (23)
All-campus	7.2%	8.9%
Drops from the University		
Student-athletes	2.4% (11)	1.0% (4)
All-campus	2.2%	1.5%

In support of its goal to achieve above average GPAs, ICA also wishes to promote the importance of its athletes bringing their academic careers to a successful conclusion by ensuring that every student has the best opportunity to graduate. To this end, the goal set by ICA as stated above is to achieve and maintain graduation rates for all student-athletes that are greater than, or equal to, the graduation rates for all Purdue students.

According to NCAA reporting requirements, for a student-athlete to be counted as a graduate in a cohort, he or she must graduate from the institution of initial enrollment (Purdue) within six years of original entry. The most recent cohort to have completed the six-year reporting period is that for 1997-98. For that cohort, 81% percent of student-athletes (men 77%, women 86%) graduated within the six-year reporting period. Sixty-six percent of all Purdue students (men 64%, women 68%) graduated in the same time frame.

The 81% graduation rate for the Purdue student-athletes is above the 64% graduation rate for student-athletes in all Division 1A Schools. The Purdue graduation rates are greater than the rates for Division 1A Schools in baseball, football, men's other, men's and women's track women's basketball and for women's other. Reporting of the men's graduation rate in basketball was suppressed due to FERPA regulations on small sample sizes.

A related objective of ICA for student-athletes is that the 4-year moving average graduation rate for student-athletes exceeds that of the overall student body. The measure, which is less sensitive to short-term fluctuations than the yearly rates, is the average of the graduation rates for the four most recently completed 6-year cohorts, in this case the, 1994-95, 1995-96, 1996-97 and 1997-98 cohorts. This moving average was 70% for student-athletes and 64% for the student body.

Note: In accordance with Federal reporting requirements which are adopted by the NCAA, student-athletes who transfer out are still in Purdue's figures; however, a transfer in does not count in Purdue's figures.

Appendix 2 summarizes the statistical report (data received from the Office of the Registrar), and compares the graduation rates for student-athletes to the rates for all Purdue students who entered the University in the academic year 1997-1998 and to the rates for NCAA Division 1A schools.

Note: Figures showing the distribution of student-athletes among the Schools of Purdue University during the Fall 2004 semester appear in Appendix 6.

The 25/75 Club

The concept of "25/75" was developed and helped guide a comprehensive review of our athletic facilities. The "25/75" Club refers to an elite class of intercollegiate athletics departments. The term applies to those institutions that finish in the top 25 of the overall National Association of Collegiate Directors of Athletics (NACDA) Directors' Cup standings and graduate 75 percent of their student-athletes. The Directors' Cup is an award representing collective excellence in all varsity sports. Began in 1993-94 for Division I by NACDA and *USA Today*, it was expanded in 1995-96 to include Division II, III and the NAIA.

Purdue University is at the doorstep of the "25/75" Club. Over the next five years, energies will be focused on taking the next steps to national prominence. Appendix 3 contains information on the 2003-04 Directors' Cup and Graduation Rank. Purdue University is ranked 38/70 and that is 18 out of all division 1 schools (Appendix 3).

FACULTY OVERSIGHT OF ATHLETICS

Faculty oversight of ICA continues to be exercised through the AAC. The membership of the AAC, listed at the end of this report, continues to include representation from faculty, an appointed liaison from the Student Affairs Committee of the University Senate, alumni, and citizens from the local community, Purdue University students, and ICA. The AAC has a charge to study, review and approve changes in rules and regulations affecting intercollegiate athletics programs, and to formulate positions with regard to legislation pending before the NCAA. The AAC also discusses current NCAA changes to regulations and proposals on diverse topics that will affect the status of both university sports programs and the eligibility of student-athletes.

Appendix 5 contains the minimum core-curriculum requirements for initial eligibility under a 14 core course rule and a 16 core course rule. Student-athletes first entering college on or after

August 1, 2003 but before August 1, 2005 may meet initial-eligibility requirements under either the 13 core course rule or the 14 core course rule, while those student-athletes entering college on or after August 1, 2005 must meet the 14 core course rule. The 16 core course rule takes effect for those student-athletes entering college on or after August 1, 2008. Initial-eligibility standards for full and partial qualifiers are listed in Appendix 3 for student-athletes entering under the 13 core course rule. The initial-eligibility standards corresponding to the 14 and 16 core course rules are shown in Appendix 5. Note that computer science is being eliminated as an acceptable core-course area for students first entering any college or university on or after August 1, 2005.

Monthly meetings of the AAC are held at which members hear reports and participate in discussions pertinent to their mandate. Coaches from all sports are regularly invited to speak to the AAC on the academic status of the student-athletes and individual teams. This year we also heard from Joel Rasmus, Director of Promotions. Topics dealt with this year also included updates on the Intercollegiate Athletics Department Strategic Plan, NCAA Academic Reform Initiatives, the SAT, and the Division I Academic Performance Program.

The members of the AAC are thoroughly impressed with the efforts that the professional staff and coaches at Purdue University make on a continual basis to emphasize the importance of academic achievement to the athletes in their charge. It is the opinion of all members of this committee that the coaches and their staff as presently constituted at Purdue University expend an effort to assist their athletes in all aspects of their academic and social growth well beyond that which would normally be expected of them. Indeed, they are to be commended for the work they are doing both on and off the field of sport.

HIGHLIGHTS OF OUR SPORTS TEAMS IN 2004:

Certainly, we prefer that our athletic teams excel athletically as well as academically. From the Intercollegiate Athletics Strategic Planning document, again, we have the following Goals statement regarding athletics: "All sports will place in the upper half of the Big Ten and will be ranked in the top 25 nationally. When we are performing at these levels on a consistent basis, we will be competing for championships in the Big Ten and nationally." Following is a selection of highlights from each sport in which Purdue competes at the varsity level, covering the year elapsed since the previous report.

Sports in which both Men and Women Compete

Cross Country

The Purdue cross country teams were under the direction of new head coach Jack Warner. Senior Amber Ferner managed to do something that no other female distance runner has done in a generation - qualify for the NCAA Championships. The senior out of West Lafayette finished 20th at the NCAA Great Lakes Regional Championships, earning an individual place in the championship field. The Purdue cross country teams finished ninth in the women's race and in 10th in the men's event at the 2004 Big Ten Championships in Iowa City, Iowa. The race was run at the UI Cross Country Course. Freshman Justin Stadt was the top Boilermaker with a time of 25:56 for 61st overall and 55th among scoring runners.

Swimming and Diving:

The Boilermakers finished fifth at the Big Ten Championships with 351 points, marking the fourth straight year of improvement for Dan Ross' team. Senior Louis Paul and freshman Romain Maire got the ball rolling early with their third and sixth-place showings in the 200 back. Paul secured his second NCAA automatic cut of the meet, touching the wall in 1:43.85, while

Maire posted an NCAA provisional mark of 1:44.85. The Boilermakers clinched the No. 5 spot after scoring five divers off the platform tower. Sophomore Steven LoBue was Purdue's top performer, coming in third place with 547.40 points, breaking the varsity record of 535.10 he set in prelims. Veterans Josh Karshen, Clayton Davis, J.R. Hillis and David Hanisch all scored during prelims, combining for 20 points.

All of Purdue's varsity and personal records and NCAA `A' and `B' cuts added up to a fifth-place finish. The Boilermakers' final tally was 399 points, a 62 point improvement from last season. Susan Hentschel clinched spots for the 50 and 100 freestyle at the NCAA Championships based on her performances this week at Big Ten's.

Track and Field:

Competing for his native country of Croatia, Senior Nedzad Mulabegovic finished with a distance of 19.07 meters (62 feet, 6 3/4 inches). He automatically qualified for the Olympic Games last summer, winning the Croatian National Championship with a then-career best launch of 20.15 (66-1 1/2). The Boilermakers finished seventh at the 2005 Indoor Big Ten Championships. Senior Nedzad Mulabegovic celebrated winning his second Big Ten conference gold medal in the shot put at the 2005 Indoor Big Ten Championships, finishing first in front of a pro-Boilermaker crowd at Lambert Fieldhouse. Mulabegovic, who also won this title as a freshman in 2002, is Purdue's first indoor conference champion since 2003, when Kenneth Baxter (200), Pooh Williams (pole vault) and Prentice Stovall (60) all were victorious. Sophomore Rickey Pinkney won the 60-meter hurdles at the Big Ten indoor championships, becoming the first Boilermaker since Rod Woodson in 1987 to win a conference indoor hurdle title.

The women’s track and field team placed 10th for a second straight year, scoring 27 points. Astin Steward placed fourth with a personal best launch of 18.87 meters (61 feet - 11 inches). Courtney Magnuson, a senior, placed two spots lower with a lifetime best of 18.65 (61-2.25). The two combined for eight of the 11 points Purdue scored during the final day of competition. The Old Gold and Black also received two points from Gina Harvey in the 400 and one from its 4x400-meter relay team. Harvey was Purdue's lone finalist in any track event, and placed seventh with a season best of 57.09 seconds. Purdue next competes March 4 and 5 at the Notre Dame Alex Wilson Invitational. This is a last-chance meet for the Boilermakers in order to advance to the NCAA Indoor Championships at the University of Arkansas (March 12 and 13).

Golf:

Purdue senior golfer Shiv Kapur has been named a PING All-America Honorable Mention by the Golf Coaches Association of America. The Boilermakers tied for 15th overall in the NCAA Championships, but didn't play in the fourth round after losing in a playoff hole. Kapur participated in the final round as an individual. Kapur led the Boilermakers throughout the season. He was named first team All-Big Ten and averaged a team-low 72.5 over the season. He recorded 10 top-ten finishes during the season.

Purdue was ranked No. 49 in the golfweek.com poll heading into the championships. This was the third time in the last four seasons the Boilermakers were playing in the NCAA Championships. They are one of 19 teams to accomplish that feat.

The Purdue women's golf team finished 22nd at the NCAA Women's Golf National Championships. The No. 38 Boilermakers are one of seven teams to have advanced to five-straight NCAA national championships. Senior Beth Hermes led the Boilermakers after totaling a 293. She fired a final-round 72. Hermes recorded three of four rounds at even or under par.

Women's Sports

Soccer:
The soccer team had a difficult season with the loss of nine seniors. This new team had an overall record of 10-10. Purdue finished with a Big Ten record of 4-6 and ranked 7th in the Big Ten Tournament after losing to No. 6 ranked Ohio State. Although breaking the two year streak to the NCAA tournament, they are rebuilding with sixteen freshmen who will make an impact for next year. The Boilermakers gained eight true freshmen starters and are improving, and rebuilding for the 2005 season.

Softball:
The Boilermakers ended the 2004 season with a winning record of 32-25, completing the team's sixth consecutive 30-win season. Six newcomers joined the roster after the loss of two seniors.

Volleyball:
The Purdue squad reached several team and program milestones in 2004. The team knocked off four Top 25 opponents in a season for the first time since 1985, including No. 9 Colorado State in the NCAA first round, a victory which marked Purdue's first postseason win since the 1987 NCAA Tournament. The Boilermakers advanced to the NCAA second round before falling to No. 2 Hawaii to wrap up the season. The team finished the season with a 17-15 overall record, including a 9-11 mark in the Big Ten Conference. Their 17 overall wins and the nine conference victories were the most since the 1992 season, when the team went 17-13 and 10-10 in the Big Ten.

Women's Basketball
The Boilermakers finished the 2004 regular season with a record of 16-11 and 9-7 in the Big Ten. Purdue was led by sophomore Katie Gearlds, who averaged 14.2 points per game. Gearlds, a 6-foot-1 sophomore guard, was named to the coaches' second team. She was a third-team pick by the league media. Erin Lawless, a 6-foot-2 sophomore forward, was named honorable mention All-Big Ten by both the coaches and media. Lindsay Wisdom-Hylton, a 6-foot-2 forward, was named to the Big Ten All-Freshman Team. Purdue will own the No. 5 seed in the Big Ten Tournament, and will face No. 4 seed Minnesota on Friday, March 4, at Conseco Fieldhouse in Indianapolis.

Men's Sports

Football
The 2004 Purdue football team finished with a 7-5 overall record after losing 27-23 to Arizona State in the Sun Bowl in El Paso, Texas. The Boilermakers played in the Sun Bowl for the third time in four years. Purdue is one of only two schools in the Big Ten and one of merely eight nationally to play in a bowl each of the last eight years. Purdue finished 4-4 in the Big Ten, good for a sixth place finish.

Baseball
The Purdue nine finished the 2004 season with a record of 29-28, 17-14 in the Big Ten. The Boilermakers finished fifth in the conference and headed to the Big Ten Tournament. Purdue defeated Michigan State, 6-5 in the first round and then faced number-one seed Minnesota, where the Gophers topped the Boilermakers 6-5. The Boilermakers fell to the Buckeyes in the third round of the tournament, 6-4. At the end of the season, the San Francisco Giants selected third baseman Simon Klink in the 21st round of the 2004 Major League Baseball draft.

Wrestling

The Old Gold and Black completed the season with a record of 8-12, 2-6 in the Big Ten. Purdue placed five out of 10 wrestlers at the prestigious Cliff Keen invitational in Las Vegas, with individual finishes at 2nd, 4th, 5th and two at 8th. The highlight of the season was beating number eleven Michigan State on senior day in Mackey Arena. The Big Ten Championships begin March 5.

Men's Basketball

Wrapping up his 25th season as head coach, Gene Keady and the men's basketball team are 7-17 with three games remaining on the schedule. Purdue reached the 1500th win mark in Purdue history against Iowa on February 16. Junior forward Carl Landry is leading the Big Ten in scoring, averaging 19.5 points per game. He is second in field goal percentage, fourth in rebounding and has scored in double figures in 21 of 22 games. He has also posted five double-doubles on the season.

2004-2005 ATHLETIC AFFAIRS COMMITTEE

Olivia Bennett Wood (*Committee Chair*, *Associate Professor & Director Didactic Program in Dietetics, Foods & Nutrition*)
Roger L. Blalock (*Associate Athletic Director for Sports*)
Jeffrey T. Bolin (*Professor of Biological Sciences, Faculty Athletic Representative*)
Jo Ann Brouillette *(Community Liaison)*
Morgan J. Burke (*Athletic Director*)
Jan Cover *(University Senate Appointment)*
Nancy L. Cross (*Senior Women's Administrator Associate A.D. for Marketing & Development*)
John G. Graveel (*Student Affairs Liaison, Professor of Agronomy)*
Robert L. Holloway (*Alumni Representative*)
Edward G. Howat (*Assistant Athletic Director for Student Services*)
John A. Knote, M.D. (*Alumni Representative*)
Holly L. Mason (*Professor of Pharmacy Administration and Pharmacy Practice and Associate Dean of Pharmacy*)
Brett McCoy (*Student Representative)*
Thomas J. Reiter (*ex-officio, Compliance Director*)
Thomas B. Robinson (*Presidential Liaison, Vice President for Student Services*)
Christie L. Sahley (*Associate Professor of Biological Sciences and Asst. Dean of Science, Faculty Athletic Representative*)
Lindsay M. Schoettmer (*Student Representative*)
Thomas J. Templin (*Professor and Head, Department of Health and Kinesiology*)
Glenn F. Tompkins (*Senior Associate Athletic Director for Business*)
Charles W. White (*Assistant Professor, Computer Graphics Technology*)

President Approved: 8/19/02

INTERCOLLEGIATE ATHLETICS
VISION

A nationally prominent athletic organization that is excellent in all respects and a member of the "25/75 Club."

INTERCOLLEGIATE ATHLETICS
MISSION

Our collective aspirations will be to achieve national success – both athletically and academically – and by so doing engage and inspire all constituencies to support the broader University pursuit of preeminence.

To allow student-athletes to meet or exceed their expectations in every aspect of their experience at Purdue University and to provide the resources for coaches and staff to develop winning programs.

This will be accomplished in an environment that recognizes the value of diversity and adheres to the highest standards of integrity, work ethic and teamwork.

INTERCOLLEGIATE ATHLETICS
GOALS

Athletic

All sports will place in the upper half of the Big Ten and will be ranked in the top 25 nationally. When we are performing at these levels on a consistent basis, we will be competing for championships in the Big Ten and nationally.

Academic

Student-athletes will be at or above the all-campus grade point average. Graduation rates will be at or above the all-campus average.

Fiscal

Marketing, Promotion, and Development plans will be designed and implemented to generate a source of revenue. These monies, along with all other funds available to the department, will be allocated and managed to ensure that we have the resources for scholarships, quality academic support services and comprehensive, excellent facilities.

Equity

Provide quality participation opportunities that recognize and support gender and ethnic equity for all student-athletes in an atmosphere that fosters diversity in all constituencies.

Image

All actions, whether proactive or reactive, will create, maintain and project an image of excellence.

Appendix 2

STUDENT-ATHLETE GRADUATION RATES*

Graduation Rates for Freshmen Entering in 1997-1998**

	Purdue	NCAA Division 1A
	---------- % ----------	
All Students	66	64
Student-Athletes	81	62
Men	77	55
Women	86	70
Women's Basketball	80	64
Women's Track	75	65

2.050	990	84
2.025	1000	85
2.000	1010	86

Appendix 5

MINIMUM CORE-CURRICULUM AND GRADE POINT AVERAGE REQUIREMENTS FOR INITIAL ELIGIBILITY – DIVISION 1

Courses	**Effective Aug. 1, 2005 14 courses**	**Effective Aug. 1, 2008 16 courses**
English	4 years	4 years
Mathematics	2 years (Algebra I or higher)	3 years (Algebra I or higher)
Natural/Physical Science	2 years (1 year of lab if offered by high school)	2 years (1 year of lab if offered by high school)
Additional English, math or natural/physical science	1 year	1 year
Social Science	2 years	2 years
Additional academic courses in any of the above areas or foreign language, philosophy, non-doctrinal religion, or computer science*	3 years	4 years
Core curriculum grade-point average/test score initial-eligibility index	See sliding scale, Appendix 4	See sliding scale, Appendix 4

Students entering college on or after August 1, 2005 must meet the new 14 core course rule. Computer science is being eliminated as an acceptable core-course area for students first entering any college or university on or after August 1, 2005.
