

THE SPRING 2023 COMMENCEMENT CEREMONY

A Perspective

Purdue University owes a substantial debt to its medieval predecessors for its commencement ceremony and academic attire. The academic heritage that evolved during the Middle Ages provided us with a teaching institution, the university; a method of measuring academic progress, degrees; and a structure for an appropriate ceremony recognizing the student's achievement, commencement. In June 1875, Purdue University held its first commencement outdoors on the Oval, awarding the Bachelor of Science degree to a class of one. In 1903, commencement was moved indoors to the newly-completed Eliza Fowler Hall. The steady growth of the size of the graduating class necessitated moving the exercises to larger and larger facilities: the Memorial Gymnasium, the Armory, the Field House, and in 1940, to the Edward C. Elliott Hall of Music. The commencement at the West Lafayette campus is being held today for graduates who qualified for their degrees at the end of the current semester. The colorful ceremony, enacted each year on campuses throughout the world, is the formal climax and recognition of the graduates' years of study and preparation.

ACADEMIC ATTIRE

Graduate candidates for degrees wear a black tassel on the left side of the square Oxford cap, or mortarboard, signifying receipt of a previous degree. At Purdue, the color of the trim on the hood identifies the areas of specialization.

THE USE OF ACADEMIC EMBLEMS

The Seal

Seals are common to all corporate bodies and have been used since ancient times to authenticate documents. They constituted the official signatures of emperors, bishops, and corporations. University seals evolved from those of church corporations. In Europe, the early faculties and student nations possessed seals; in the United States, all colleges and universities have had seals since Colonial days. The current Purdue Seal was officially adopted in 1969 and retains elements of earlier versions, which evolved beginning in 1890. The seal features a stylized depiction of the griffin, the mythological beast with the head of an eagle and the body of a lion. In medieval heraldry, the griffin symbolized strength. The three-part shield represents Purdue's traditional aims: learning, discovery, and engagement. The seal combines these traditional elements with modern simplicity of design to form one of the most distinctive of university symbols.

The University Mace

The mace has an ancient history as a symbol of authority. Originally giant clubs made of iron and capable of breaking armor, maces were used chiefly by knights. They were also often borne by a royal bodyguard to protect the king in processions. In the course of time, by the 14th century, they assumed more ceremonial functions and lost their warlike appearance, as they began to be decorated with jewels and precious metals. In 1649, the English House of Commons obtained a mace. In 1756, a silver mace was made for the colony of South Carolina; it is still in use in the state capital at Columbia. In the United States House of Representatives, the mace is placed to the right of the speaker. As a symbol of order and authority, a mace is carried before the president and other dignitaries in the platform party in commencement processions. As a reflection of the modern vision of a truly American university, the design of the Purdue Mace embraces sweeping thrusts and counterthrusts to create a vital energy within an otherwise clean, linear aesthetic. The University seal is located in the center of the mace-head; bounding it are two sweeping silver wings.

The Presidential Medallion

Closely allied with maces and seals as symbols of authority are the collars of office worn by many officials, including chancellors and presidents of universities. Collars usually include a medallion inscribed with the seal of the institution and are worn over the academic gown on public occasions, particularly at commencements. Located in the center of Purdue's Presidential Medallion is the three-part "heraldic shield" and griffin, the symbol which has existed throughout Purdue's long history of University seals. The medallion, as well as the mace, was handcrafted from sterling silver, ebony, and gold, using the centuries-old techniques of swedging, forging, hollow-forming, and silver soldering.

The Banners

The banners, sometimes known as standards or gonfalons (a flag that hangs from a crosspiece or frame), originated in the medieval republics of Italy as an ensign of state or office. They have been adopted in many universities around the world as school or institutional insignias. The fourteen banners displayed represent the University, the Graduate School, and the ten undergraduate colleges or schools at the West Lafayette campus. The colors of the University, old gold and black, are joined together in a pattern common to all the banners. The bands are the same colors as the tassels worn on the mortarboard of the college's or school's graduates.

Each college or school is represented on its banner by a symbol and two colored bands indicating its major academic discipline.

The Teaching Medallion

The medallion identifies members of the Purdue University Teaching Academy, a dedicated and dynamic network of scholar-teachers committed to the continual improvement of teaching and learning at Purdue University. Under the auspices of the Office of the Executive Vice President for Academic Affairs, the Teaching Academy works with the academic schools, the Center for Instructional Excellence, and others to enrich the educational experiences of the entire Purdue University community. The mission of the Teaching Academy is to provide leadership and serve as a catalyst to enhance and strengthen the quality of undergraduate, graduate, and outreach teaching and learning.

*Designated as a Distinguished Military Graduate

The designation of "Distinguished Military Graduate" indicates selected individuals who have demonstrated a particularly high level of achievement while earning both an academic degree and a commission in the Armed Forces of the United States. Criteria used in making the selection include demonstrated performance and leadership in course work as well as in athletics and extracurricular functions. The candidate must also maintain at least a "B" average in all course work while ranking in the upper third of his or her contemporaries for the Army or Navy, or the upper tenth for the Air Force. Commissionees so designated receive an appropriately inscribed certificate from their respective service.

This program is not an official graduation list

While every effort is made to ensure accuracy in this commencement program, printing deadlines sometimes prevent inclusions of graduates' names, or may result in the use of names of persons not completing graduation requirements. This printed program, therefore, should not be used to determine a student's academic or degree status. The University's official registry for conferral of degrees is the student's permanent academic record, kept by the Office of the Registrar, 128 Memorial Mall, West Lafayette, IN 47907-2040.

PURDUE STUDENT ATHLETE

Graduates wearing the student athlete medallion are recognized for their hard work and dedication in balancing their equally demanding academic and athletic commitments. At Purdue, where student-athletes are real students, taking real courses, earning honest grades, this is no small accomplishment, and we applaud their achievement.

The following students in addition to being candidates for a bachelor's degree, are also candidates for special recognition.

Purdue Football team unveil the Old Oaken Bucket at the Purdue Men's Basketball game, November 28, 2017. In 1925, Dr. Clarence Jones, Indiana alum, and Russel Gray, Purdue alum, were given the task of finding a suitable trophy to represent the rivalry between the two schools. They traveled across the state in search of "the most typical Hoosier form of trophy". Jones and Gray came across Bruner Farm where a bucket hung from a well. They brought the bucket back with them and restored it. George Ade, representing Purdue, and Harry Kurrie, representing Indiana, presented the Old Oaken Bucket trophy to President Bryan, of Indiana, and Dr. Elliott, of Purdue at Ross Ade Stadium, in the 1925 game. Ironically, the 1925 game ended in a 0-0 tie. The bronze block "IP" was linked to the trophy to signify the tie. As of 2013, Purdue leads the series 72-38-6.

SPECIAL STUDENT AWARDS

The Charles O. McGaughey Leadership Awards

Brooks Despirito, Polytechnic Institute
Carl Russell III, College of Engineering
Nathan Wong, Polytechnic Institute

Mr. McGaughey, a Purdue graduate from the Class of 1939, established the awards to honor students for leadership promise. To be eligible for these awards, students must have completed a minimum of two years full-time study at Purdue and achieved at least a 3.0 graduation index. Recipients are selected on the basis of their contributions to the University and the community. Each honoree receives a monetary award as an acknowledgement of their superior leadership abilities, scholarship, and appreciation of basic American values, and a crystal paperweight commemorating the award.

The G. A. Ross Award

Lara B. Chuppe, College of Science

This award is presented annually to the outstanding man in the graduating class and is made possible through a gift from Mr. Ross, a devoted alumnus and benefactor of Purdue University from the Class of 1916. The recipient receives a \$2000 award, medallion and his name permanently inscribed on the award marker on the Purdue Engineering Mall.

The Flora Roberts Award

Frances Ann Fu O'Leary, College of Science

The award is presented annually to the outstanding senior woman to honor her scholarship, leadership, character and service to the University community. The award was made possible through a bequest of Miss Flora Roberts of the Purdue Class of 1887. The recipient receives a \$2,000 award, medallion, and her name permanently inscribed on the award marker on the Purdue Engineering Mall.

The Louis Sudler Prize in the Arts

Liam Coyne, College of Liberal Arts
Kyle Redcross, Daniels School of Business
Dominic Seidita, College of Science
Faith Spencer, Polytechnic Institute
Michaela Testerman, College of Liberal Arts

The prize is awarded to an outstanding senior who has demonstrated excellence and the highest standards of proficiency in the visual or performing arts. This award is endowed by the late Louis Sudler, a Chicago businessman and generous supporter of the arts. The recipient receives \$1,000 and a certificate.

Martin C. Jischke Outstanding International Student of the Year Award

Adam Barmash Rubinchik, College of Health and Human Sciences

Established by President Emeritus Martin C. Jischke to honor an international Purdue student who has made special efforts to welcome and connect with people of all cultures. The award is granted to a graduating senior who has attained a minimum of 3.0 graduation index or higher; demonstrated leadership qualities and achieved academic accomplishments through further research, publications or presentations; and participated in service projects. The recipient receives a cash award along with their name inscribed on a plaque in Schleman Hall.

The France A. Córdova Award for Leadership in Action

Olivia Wyrick, College of Agriculture
Angel Enriquez, Graduate School

Established by President France A. Córdova, the award honors a graduating student who has demonstrated exceptional leadership during his or her Purdue career. The award is granted to a student — graduate or undergraduate — who will graduate during the calendar year of the award with a cumulative grade point average of 3.0 or higher. The student must have held successful leadership roles at Purdue, working in partnership with staff and faculty to move the university forward. The recipient must have exhibited integrity, influence, vision and guidance in creating transformative change for current and future students. The award winner receives a certificate, a cash award, and his or her name is inscribed on a plaque.

HONORARY DOCTORATES

Sixth Division

Thomas Shelby
Executive Vice President, Peter Kiewit and Sons, Inc. and the President of Kiewit Energy Group

Thomas Shelby is an Executive Vice President of Peter Kiewit and Sons, Inc., and the President of Kiewit Energy Group. Kiewit is the third largest engineering and construction company in North America, designing and building \$13 billion of work annually and employing over 40,000 people. Kiewit Energy Group is responsible for about half of Kiewit's revenue and is a leading company in the North American markets of power; oil, gas and chemical; and industrial process.

Tom has served on the company's board of directors since 2006. Since 2009 he's had executive oversight of Kiewit's supply network, human resources group, engineering group and data services. During Tom's 32-year career with Kiewit he worked in a variety of executive roles, primarily in operations related to the engineering and construction of major fossil and renewable power plant projects, and to oil, gas and petrochemical projects, including work in the offshore oil industry. Prior to joining Kiewit, Tom worked for Bechtel for nine years.

During Tom's tenure as president of Kiewit Energy and as a board member, Kiewit changed its focus from being a construction-only company to having world-class engineering capabilities in all major markets. In fact, Kiewit has expanded its engineering and energy business from less than \$100 million in 1991—the year Tom joined Kiewit—to over \$6 billion today. Tom led the initiatives to open Energy offices in Canada and Mexico, expanding the energy markets for Kiewit into those countries. He also led the formation of engineering hubs in north America, growing the company's engineering capabilities from 100 employees in the year 2000 to almost 3,000 employees today.

Tom is a member the National Academy of Construction, an honorary group of industry in the engineering and construction industry. He is a current member of the Purdue Polytechnic Advisory Council and a past Purdue Distinguished Alumni.

Tom earned a bachelor's degree in Construction from Purdue in 1981. In 1989 he earned a Master of Business Administration degree and a Master of Science degree in Decision Systems from Arizona State University.

Eighth Division

David A. Ricks
Chair and Chief Executive Officer of Eli Lilly and Company

Dave Ricks is chair and chief executive officer of Eli Lilly and Company. A Lilly veteran for more than 25 years, with experience in marketing, sales, drug development and international operations, Dave became CEO in January 2017 and was elected chair of the company's board of directors effective June 2017.

Dave served as president of Lilly Bio Medicines from 2012 through 2016. He led the company's largest affiliate, Lilly USA, as president from 2009 to 2012. Prior to that, Dave served in international leadership roles for nearly eight years. He served as president and general manager of Lilly China, operating in one of the world's fastest growing emerging markets, from 2008 to 2009. He led Lilly Canada as general manager from 2005 to 2008, after roles as director of pharmaceutical marketing and national sales director in that country. Dave joined Lilly in 1996 as a business development associate and held several management roles in U.S. marketing and sales before moving to Lilly Canada.

Dave earned a Bachelor of Science degree from Purdue University in 1990 and a Master of Business Administration degree from Indiana University in 1996. Dave is on the board of Adobe and is the immediate past chair of the board of the Pharmaceutical Research and Manufacturers of America (PhRMA). Dave is a member of the International Federation of Pharmaceutical Manufacturers & Association's CEO Steering Committee, The Business Council, Business Roundtable, and the U.S. Patent and Trademark Office's Council for Inclusive Innovation.

Closer to home, Dave is also heavily engaged in the development and well being of Central Indiana. He serves on the board of the Central Indiana Corporate Partnership and on the Riley Children's Foundation board of governors.

GUEST SPEAKER

Ninth Division

KATHLEEN CONNOR HOWELL
*Professor of Aeronautics and Astronautics,
College of Engineering*

Professor Kathleen Connor Howell is presently the Hsu Lo Distinguished Professor of Aeronautics and Astronautics in the College of Engineering at Purdue University. She earned her BS degree in Aerospace Engineering from Iowa State University; her M.S. and Ph.D. degrees in Aeronautical and Astronautical Sciences are from Stanford University. Professor Howell's technical research interests and expertise are in astrodynamics, with particular applications in complex gravitational environments; such analysis includes mission and trajectory planning, station-keeping and maneuver design, as well as low-thrust applications and small satellites. She has successfully applied these methodologies to numerous NASA missions. She served for many years as the Editor-in-Chief for the *AAS Journal of the Astronautical Sciences*; she is also a current member of a number of other editorial and advisory boards. Professor Howell is an elected member of the National Academy of Engineering, the American Academy of Arts and Sciences, and the International Academy of Astronautics. She is also a Fellow of both AIAA and AAS. She is involved with various other organizations within the international aerospace and astrodynamics community.

The faculty and candidate procession passes across the Purdue Oval at the commencement in 1903, the first year commencement exercises were held in Eliza Fowler Hall. Participants dressed in regular clothes, since the use of caps and gowns for graduation was not to be adopted by the senior class until 1922.

STUDENT RESPONDERS

First Division

Courtney Rodkey
College of Agriculture

Courtney Rodkey of Frankfort, Indiana, is receiving a Bachelor of Science in Agricultural Economics with a concentration in commodity marketing.

Courtney has served as an ambassador for the College of Agriculture, president of the Purdue Agricultural Council, podcast co-host for the Department of Agricultural Engineering and president of the Unhurried Club. She also is an active member of Chi Omega Sorority.

Courtney has worked as a commercial sales intern at Corteva Agriscience in State College, Pennsylvania; sales and agronomy intern at LG Seeds in Hays, Kansas; and grain intern at Co-Alliance Scircleville Grain in Scircleville, Indiana.

After graduation, Courtney plans to work at Corteva AgriScience as an associate territory manager in Kansas City.

Second Division

Shreya Misra
College of Engineering
School of Aeronautics and Astronautics

Shreya Misra of Dubai, United Arab Emirates, is receiving a Bachelor of Science in Aeronautical and Astronautical Engineering with minors in electrical and computer engineering, and mathematics.

Shreya worked as a fluids metrology intern at Cummins Inc., in Columbus, Indiana; prototype and test engineering intern at Laminar Scientific in Cedar Rapids, Iowa; and quality control engineering intern at Sausage Kitchen in Dubai. She also served as a teaching assistant for the Data Mine Corporate Partners Program and has acted as vice president of finance and as team tech chair for the Purdue Society of Women Engineers.

After graduation, Shreya plans to join Tesla in Austin, Texas.

STUDENT RESPONDERS

Third Division

Sihun Kim
College of Engineering
School of Electrical and Computer Engineering

Sihun Kim of Springfield, Virginia, is receiving a Bachelor of Science in Electrical Engineering and minors in entrepreneurship, and artificial intelligence and machine learning.

Sihun completed a hardware engineering internship at Tektronix in Beaverton, Oregon, and a lean manufacturing internship at GE Aviation in Clearwater, Florida. He worked as a research assistant for the ASPIRE (Advancing Sustainability through Powered Infrastructure for Roadway Electrification) Research Center in West Lafayette and as a design lead for the EPICS program in the College of Engineering.

After graduation, Sihun plans to work with tech startup Ixana at Purdue Research Park.

Fourth Division

Allison Ellis
College of Health and Human Sciences

Allison Ellis of Fishers, Indiana, is receiving a Bachelor of Science in Health Sciences with a minor in management.

Allison is one of 100 students selected as a Trustee Scholar, earning full in-state tuition, and is a member of the Alpha Gamma Delta Fraternity Red Society. She has served as fundraising chair and high school marathon relations conductor for the Purdue University Dance Marathon; vice president of philanthropy for Alpha Gamma Delta Women's Fraternity; student affairs committee head for the College of Health and Human Sciences Student Council; and mentor for the College of Health and Human Sciences. In addition, Allison worked as a teaching assistant for an Introduction to Public Health Sciences course and as an undergraduate student researcher in Purdue's Gavin Lab.

Allison served as a clinical student volunteer at Hancock Regional Hospital in Greenfield, Indiana; pediatric oncology intern for Eli Lilly and Company in Indianapolis; and as a research intern for the biosciences firm Quantigen LLC in Fishers, Indiana. She also volunteered with Food Finders Food Bank and Indiana University Health's Get Onboard Active Learning program.

After graduation, Allison plans to attend IU School of Medicine to become a physician.

STUDENT RESPONDERS

Fifth Division

Frances O'Leary
College of Science

Frances O'Leary of Claremont, California, is receiving a Bachelor of Science in Computer Science and Mathematics.

Frances has worked as a software engineering intern for SpaceX Starlink in Hawthorne, California, as a software engineering intern for Microsoft and as a Microsoft Explore intern. At Purdue, she worked on corrective 3D printing research for the XYTZ Lab and served as chief engineer for a FEMTA Orbital Flight Test while competing within the University Nanosatellite Program.

Frances worked as a teaching assistant within Purdue's Department of Computer Science and participated in the Purdue Space Program. In addition, she acted as supervisor and treasurer of the Purdue 3D Printing Lab. She also plans to obtain a private pilot license.

After graduation, Frances plans to work as a flight software engineer on the Dragon capsule at SpaceX.

Sixth Division

Chase Triplett
Polytechnic Institute

Chase Triplett of Michigan City, Indiana, is receiving a Bachelor of Science in Construction Management Technology with a minor in theatre.

Chase is a member of and served as secretary for the Purdue chapter of Sigma Lambda Chi Construction Honor Society. He also was secretary for the National Association of Minority Contractors and played linebacker for the Purdue Boilermakers football team.

Chase has worked as a field manager for Fischer Homes in Fishers, Indiana; craftsman associate intern for Gaylor Electric in West Lafayette; a tour guide for Harbor Country Adventures in Michigan City; and chief operating officer and podcast co-host for the "What's Your Story Vlog."

After graduation, Chase plans to work as a field engineer with Hensel Phelps in Irvine, California.

STUDENT RESPONDERS

Seventh Division

Kathleen Massa
College of Pharmacy

Kathleen Massa of Darien, Illinois, is receiving a Bachelor of Science in Pharmaceutical Sciences with minors in biological sciences, chemistry and communications.

Kathleen was a recipient of the Purdue Presidential Scholarship. At Purdue, Kathleen participated in undergraduate research at the Hu Lab. She also served as vice president and leadership committee head of Phi Delta Chi-Tau chapter, and as an ambassador for the College of Pharmacy.

Kathleen also has worked as a technology transfer intern for Fresenius Kabi in Melrose Park, Illinois; and for Walgreens at Willowbrook and Cicero locations in the Chicago area.

After graduation, Kathleen plans to work as a technology transfer scientist at Fresenius Kabi.

Eighth Division

Anyssa Mujica
Daniels School of Business

Anyssa Mujica of McAllen, Texas, is receiving a Bachelor of Science in Marketing.

Anyssa has worked as a certified diversity professional consulting analyst for Accenture in Houston; campus ambassador in West Lafayette for the Big Ten Network; summer analyst for LLR Partners in Philadelphia; and summer professional enrichment intern for Evonik Industries in Lafayette. She also served as recruitment and communications intern for the Cornell A. Bell Business Opportunity Program in the Mitchell E. Daniels, Jr. School of Business, and a marketing and operations intern for Purdue Intercollegiate Athletics.

Anyssa served as the vice president of advertising and a founding member of the American Marketing Association's West Lafayette chapter; external philanthropy chair and assistant vice president of philanthropy for Alpha Chi Omega; and president, vice president and events committee member of the Society of Minority Managers.

After graduation, Anyssa plans to work with Accenture as an analyst in the Consulting Development Program.

The main gates to the campus were given to the University by the Class of 1897 in keeping with a long-standing tradition. Facing State Street and looking south to the ag campus beyond, they were wide enough to permit the bicycle and buggy traffic of their youth. But with the advent of fewer horses and more horsepower not too many years later, they were moved farther apart. The gateways were removed from their permanent location in 1956 before construction was begun on Stewart Center and now stand on the Memorial Mall near John Purdue's grave. In this photo, Heavilon Hall and the original Eliza Fowler Hall can be seen in the background.

Built in 1872 as Boarding Hall, this was the first permanent building to be erected north of State Street. When Purdue opened in September of 1874, it housed the college dining room, living quarters for new faculty and their families, and the office for Purdue's second president, Abraham C. Shortridge. Also known for a time as Art Hall, when classes in that subject were taught in some of the rooms on the first floor, it was used for the major part of its existence as the women's residence hall, Ladies Hall. It faced State Street just a few steps east of where Matthews Hall now stands. Ladies Hall was torn down in 1927—one of the first major University buildings to disappear from campus.

An 18-foot, 5,400-pound bronze statue that celebrates the lore and legend of the Purdue Boilermakers now stands next to Ross-Ade Stadium with an inscription that reads: "The year was 1891. A college known for its proud heritage of educating the sons and daughters of the working class began to dominate opponents in football. After a 44-0 thrashing of Wabash College, a headline writer provided inspiration for a most unique nickname. 'Wabash Snowed Completely Under by the Burly Boiler Makers from Purdue' chronicled a victory by the 'Herculean wearers of the black and old gold.' Never intended as a compliment, the insult appealed to the students of the day. The indomitable spirit of the boilermaker is embodied in the tireless laborer you see before you."

Congratulations, graduates!

Take your next giant leap
as a Boilermaker with the
Purdue for Life Foundation.
