Items Found as Not Working - Not Resolved Yet:

All done.		
-----------	--	--

Specific Items Still Planned for Testing:

All done.		
-----------	--	--

Items Found as Not Working - Workaround Required:

Installing IE7 breaks the site settings in Dreamweaver, causing the user to have to re-enter site setting information each time they want to use it. There is a patch from Adobe but it requires that you have the installation CDs.	11/21/06	Jeff Elio - Mgmt (via Michele Markley)
FYI: PEFCU online statements not working. PEFCU provided a 5-step list of settings to change to allow it work.	12/4/06	SSTA - Steve Baker
FYI: Microsoft could override the IE7 registry block at some future point. No date has been released yet.	12/5/06	SSTA - Steve Baker

Areas Verified as Ready:

NROTC testing completed with no issues reported	12/14/06	NROTC - Bryan Everitt
USP & Advisor web sites; WebCT; WebServ; & Contribute all tested okay. Ready to go.	12/18/06	USP - Diana Stevenson
