

Professor Marcy Towns received her B. A. from Linfield College in Chemistry and Mathematics, her M.S. working with Dr. William R. Robinson at Purdue where she pursued research related to teaching and learning in chemistry, and her Ph. D. working with Dr. Edward R. Grant at Purdue where she focused on gas phase organometallic chemistry. Currently she is an Associate Professor of Chemistry at Purdue where she directs a research program on undergraduate laboratory, student understanding of mathematics used in physical chemistry, and on visual literacy in biochemistry. During the 2009-2010 school year she is serving as the Presidential ADVANCE Advocate.
