

CURRICULUM VITAE

Elliot Michael Friedman, Ph.D.

Work Address: Dept. of Human Development and Family Science Home Address: 3032 Sullivan St.
Purdue University West Lafayette, IN
1202 West State St. 47906
West Lafayette, IN 47907
Phone: (765) 496-6378
Email: efriedman@purdue.edu

EDUCATION

Ph.D.	University of Wisconsin - Madison	9/88 - 6/93	Major: Behavioral Neuroscience Minor: Psychoneuroimmunology
A.B.	Columbia University	9/81 - 5/85	Major: Psychology

PROFESSIONAL EXPERIENCE

Purdue University	4/20 – present	William and Sally Berner Hanley Professor of Gerontology
	4/20 – present	Professor of Human Development and Family Science
	12/14 – 4/20	William and Sally Berner Hanley Associate Professor of Gerontology
	8/14 – 4/20	Associate Professor of Human Development and Family Science
	8/12 – 8/14	Assistant Professor of Human Development and Family Science
University of Wisconsin-Madison	8/07 – 8/12	Associate Scientist
	9/06 – 8/07	Assistant Scientist Institute on Aging and Department of Population Health Sciences
	9/04 – 8/06	Robert Wood Johnson Foundation Health & Society Scholar
Williams College	7/96 – 8/04	Assistant Professor of Psychology
New York State Department Of Health – Wadsworth Laboratories	8/99 – 8/00	Visiting Scientist in Neuroimmunology
University of California, San Diego	8/93 – 6/96	Postdoctoral Fellow in Neuroimmunology Mentor: Michael Irwin, MD
University of Wisconsin, Madison	1/92 – 5/92	Reader and Lecturer in Animal Behavior
	1/91 – 5/91	Reader and Lecturer in Physiological Psychology
	1/90 – 8/90	Research Assistant in Psychoneuroimmunology
	9/89 – 1/90	Teaching Assistant and Laboratory Instructor in Physiological Psychology

INVITED PRESENTATIONS

- Friedman, E.M. (2023, November). *Sleep: what it is, why we need it, and how to get more of it*. Westminster Village, West Lafayette, IN.
- Friedman, E.M. (2022, October). *Well-being is a critical component of healthy aging*. Westminster Village, West Lafayette, IN.
- Friedman, E.M. (2021, December). *A eudaimonic-well-being intervention to improve mental health in older adults*. Johns Hopkins School of Nursing, Baltimore, MD. Virtual presentation.
- Friedman, E. M. (2018, December). *Well-being: What it is and why it matters for older adults*. North Central Region Aging Network (NCRAN) webinar. Virtual presentation.
- Friedman, E. M. (2018, October). *Well-being: A key component of healthy aging*. Industrial-Organizational Psychology colloquium, Department of Psychological Sciences, Purdue University.
- Friedman, E.M. (2017, March). *Aging, well-being, and health*. St. Vincent Medical Group Center for Healthy Aging 28th Annual Conference on Aging, Carmel, IN.
- Friedman, E.M. (2016, November). *Well-being: A key component of healthy aging*. President's Council Back to Class, Purdue University, West Lafayette, IN.
- Friedman, E.M. (2016, September). *Challenging the Bard: Well-being and health into Shakespeare's 7th age*. Keynote Address. University of Wisconsin Institute on Aging Annual Colloquium, Madison, WI.
- Friedman, E.M. (2016, June). *Psychological well-being: A key ingredient in healthy aging*. Wisconsin Healthy Aging Summit. Wisconsin Dells, WI.
- Friedman, E.M. (2016, May). *Singing and health: A view from the tenor section*. Conference on Arts, the

Sciences, and Human Betterment. University of Wisconsin-Madison, Madison, WI.

- Friedman, E.M. (2014, March). *Inflammation at mid-life: patterning by socioeconomic status and psychosocial resources*. Semel Institute and Cousins Center for Psychoneuroimmunology, University of California, Los Angeles.
- Friedman, E.M. (2014, March). *Population multimorbidity: a biopsychosocial perspective*. Regenstrief Center for Healthcare Engineering. Purdue University.
- Friedman, E.M. (2014, February). *Inflammation: a model for how social factors 'get under the skin' to affect health*. Social Psychology Brownbag, Department of Psychological Sciences, Purdue University.
- Friedman, E.M. (2013, February). *Biopsychosocial perspectives on successful aging*. Center on Aging and the Life Course Colloquium, Purdue University.
- Friedman, E.M. (2013, January). *Accentuate the positive: psychological well-being and inflammation in aging adults*. Clinical Psychology Colloquium, Department of Psychological Sciences, Purdue University.
- Friedman, E.M. (2011, October). *Aging and Inflammation: Integrating Social, Psychological, and Developmental Processes*. Department of Human Development and Family Studies, Purdue University.
- Friedman, E.M., Ryff, C.D., Ruini, C., Jaros, L. & Mahoney, J. (2011, August). *Aging Successfully: Connections Between Psychological Well-Being and Positive Health Outcomes*. Wisconsin Prevention Summit: Promoting Healthy Aging. Wausau, WI. *Keynote Speaker*
- Friedman, E.M. (2010, December). *Sleep, inflammation, and social ties*. Association for Nervous and Mental Disease (ARNMD) 90th Annual Conference "Social Neuroscience: Gene X Environment X Brain X Body," Rockefeller University, New York, NY.
- Friedman, E.M. (2010, October). *How SES gets under the skin: inflammation*. Conference on Child Health and Well-Being. University of Wisconsin Institute for Research on Poverty, Madison, WI.
- Friedman, E.M. (2010, July). *Biomarkers and social science*. Workshop on biomarkers, genetics, and health. University of Wisconsin Center for Developmental Economics, Center for Demography of Health and Aging, and the Robert Wood Johnson Foundation, Madison, WI.
- Friedman, E.M. (2010, April). *Inflammation: a model for how social determinants of health 'get under the skin.'* Ohio State University Initiative on Population Research, Columbus, OH.
- Friedman, E.M., Singer, B.H. & Ryff, C.D. (2008, October). *Inflammation: a model for integrative health research*. 38th Annual Meeting of the Institute of Medicine, Washington, DC.
- Friedman, E.M., Williams, D.R., & Ryff, C.D. (2007, October). *Biological imprints of unfair treatment: links between experiences of discrimination and adhesion molecules*. Semi-annual meeting of MIDUS principal investigators. Madison, WI.
- Friedman, E.M. & Ryff, C.D. (2007, April). *Inflammatory Factors: Links to Sociodemographic, Psychosocial, and Health Variables*. Semi-annual meeting of MIDUS principal investigators. Madison, WI.

- Friedman, E.M. (2006, December). *Aging and inflammation: integrating psychosocial, biological, and developmental processes*. Department of Human Development and Family Studies, Pennsylvania State University, State College, PA.
- Friedman, E.M. & Ryff, C.D. (2005, October). *Psychological well-being and risk of disease in older women*. 17th Annual Colloquium on Aging, University of Wisconsin-Madison Institute on Aging, Madison, WI.
- Friedman, E.M. & Lawrence, D.H. (2000, March). *Induction of Brain MHC by psychological stress and LPS*. Neuroimmunology Training Program, Wadsworth Laboratories, Albany Medical College, and SUNY Albany. Albany, NY.
- Friedman, E.M. (2000, February). *Why we feel sick*. Sweetwood residential community. Williamstown, MA.
- Friedman, E.M. (1999, September). *Psychopathology and immunological reactivities*. Neuroimmunology Training Program faculty and students, Wadsworth Laboratories, Albany Medical College, and SUNY Albany. Albany, NY.
- Friedman, E.M. and Overstreet, D.H. (1999, March). *Immune Function in a genetic animal model of depression*. Psychology Department, University of California, Berkeley. Berkeley, CA.
- Friedman, E.M. (1997, March). *Humor and health*. Sweetwood residential community. Williamstown, MA.
- Friedman, E.M. (1996, March). *Bidirectional communication between the brain and the immune system: how they communicate and what happens when they do*. Psychology Department, Williams College. Williamstown, MA.
- Friedman, E.M., Gillin, J.C., & Irwin, M.R. (1994, October). *Sleep and immune function in a genetic animal model of depression*. Psychobiology Group, University of Wisconsin, Madison. Madison, WI.
- Friedman, E.M. & Coe, C.L. (1993, January). *Behavioral effects of interleukin-1 in nonhuman primates*. Psychiatry Department, University of California, San Diego. San Diego, CA.

GRANT SUPPORT

Active

National Institutes of Health (R01 AG068388-01), Ferraro (PI)

7/1/2020 – 6/30/2023

Disparities in the Life Course Origins of Cognitive Decline

The purpose of this project is to explicate disparities in the life course origins of cognitive decline after age 65 and the resources that mediate those relationships.

Role: Co-Investigator

Pending

National Institutes of Health, Zhang (PI)

4/1/23 – 3/30/28

Integrating surrogate aging biomarkers based on machine learning with psychosocial and lifestyle factors for improving early detection and personalized treatment of multimorbidity.

This project will apply machine learning to the identification of profiles of biological and psychosocial influences on risk for multimorbidity in aging adults.

Role: Co-Investigator

Completed projects

Purdue Research Foundation Faculty Award, Friedman (PI)

07/01/20 – 08/31/21

Sleep and disability: examining associations and mechanisms

This project will examine longitudinal links among subjective/objective assessments of sleep and later (7-8 year follow-up) subjective/objective assessments of physical function as well as potential mediation of associations by physical activity and inflammation.

Role: Principal Investigator

Purdue EVPRP NIH Competing Renewal R01 Program, Friedman (PI)

03/01/20 – 09/30/21

Living well with multimorbidity: A biopsychosocial approach

The aim of this project is the development and testing of a novel measure to assess concordance or discordance between subjective and objective assessments of the same behavioral, psychological, or health phenomena. The project will generate preliminary data for an anticipated competing renewal proposal to NIH in 2021.

Role: Principal Investigator

National Institute on Aging (R01AG041759-01A1), Friedman (PI)

06/15/13 – 05/31/18

Living Well with Later Life Multimorbidity: A Biopsychosocial Approach

This project will examine the social patterning of transitions from multimorbidity to disability, cognitive impairment, and mortality as well as the moderating and mediating roles of psychosocial resources and systemic inflammation, respectively. The project will involve 3 waves of data from the nationally representative Survey of Mid-Life in the United States (MIDUS) spanning a 20-year period.

Role: Principal Investigator

Wisconsin Partnership Project, Jaros (PI)

06/01/14 – 05/31/16

Improving Well-Being Among Wisconsin Older Adults

This grant will support the expansion of the Lighten Up well-being program to three counties in Wisconsin and the extension of the program to disabled as well as older adults. Pre- and post-program assessments of mental and physical well-being will be collected and are expected to serve as the foundation for a proposal to NIH for support for a randomized clinical trial.

Role: Co-Investigator

NIH RO1 R01AG036838-01A1, Peppard (PI)

08/01/10-06/30/15

The REST study: A longitudinal, Bidirectional Examination of Retirement and Sleep

This project will examine: the role of sleep habits and disorders in influencing retirement from the workforce; changes in sleep habits and disorders following retirement; and, social factors influencing

the relationships between retirement and sleep habits and disorders.

Role: Co-Investigator

Clifford B. Kinley Trust, Friedman (PI)

08/19/13 – 07/31/14

Social Patterning of Chronic Illness: Moderation by Psychosocial Resources

This 1-year project examined the distribution of chronic illness along sociodemographic and socioeconomic lines and moderation of those associations by psychosocial resources, including purpose in life and positive social relationships. Data were from the Survey of Mid-Life in the United States (MIDUS).

Role: Principal Investigator

Institute for Clinical and Translational Research (ICTR) Pilot Project Award, Friedman (PI)

University of Wisconsin-Madison

08/01/11 – 03/31/13

Promoting Well-Being in the Elderly: a Pilot Intervention with Community Partnership

This 12-month project developed and pilot tested a novel cognitive behavioral intervention to promote psychological well-being in men and women over age 65.

Role: Principal Investigator

NIH K01 1K01AG029381, Friedman (PI)

08/15/07-07/31/12

Mentored Research Scientist Development Award

Psychosocial Functioning and Inflammation: An Integrative Analysis

This project focuses on the role of positive psychological functioning as a predictor of health in middle aged and older adults as well as a moderator of adverse social exposures, such as low socioeconomic status and chronic discrimination. The project will also examine potential biological mediating pathways, such as the HPA axis and the sympathetic nervous system.

Role: Principal Investigator.

University of Wisconsin Comprehensive Cancer Center, Aging and Cancer Pilot Project grant

02/01/05 – 07/31/06

Aging and Cancer in the MIDUS National Health Study

This project focused on cancer incidence in identical and fraternal twins, and examined the correlates of both concordant (i.e. both twins had the same disease) and discordant (cancer in one twin) occurrences of cancer.

Role: Co-investigator.

Robert Wood Johnson Health & Society Scholars Program Research Grant

01/01/05 – 07/31/05

Psychological well-being and mononuclear cell function in MIDUS National Health Study

Funding supported the collection of new data in the ongoing MIDUS national study. More than 100 MIDUS participants at the UW-Madison site provided additional blood samples that were assayed for unstimulated and stimulated production of an array of cytokines related to inflammation and cell regulation.

Role: Principal Investigator.

NIAID 1R15-AI52336-01

06/01/02 – 08/31/04

Depression and Immunity: Behavioral and CNS Mechanisms

This project examined the regulation of antigen-specific immune processes by the central nervous system and descending HPA and sympathetic nervous system regulation in a genetic animal model of depression.
Role: Principal Investigator.

NIMH 5F32-MH10881-02

08/01/94 – 06/30/96

Depression: Sleep Disturbance and Interleukin-1

This project focused on normative sleep regulation by IL-1 and IL-1-induced changes in sleep in a genetic animal model of depression.

Role: Principal Investigator.

HONORS AND AWARDS

Outstanding Professor Award	2017
Center for Aging and the Life Course, Purdue University	
Fellow, Gerontological Society of America	2014
Seed for Success Award, Purdue University	2013
Given to faculty members who attract large sponsored research grants (\$1,000,000 or greater) to Purdue University	
NIH Developmental Biology of Aging Trainee	8/90 - 6/93
Best Student Paper, Annual Meeting of the American Society of Primatologists, Veracruz, Mexico	June 21-25, 1991
Wisconsin Alumni Research Foundation Fellowship	8/88 - 8/89
