

KredibleNet Workshop

April 9, 2013

9:00 AM – 4:00 PM

Discovery Learning and Research Center – Room 143 A-B

The KredibleNet project is supported by the National Science Foundation and is co-organized in collaboration with the Social Media Research Foundation.

Featured speakers are Bernie Hogan, Oxford Internet Institute, Ben Shneiderman, University of Maryland, Luca de Alfaro, UC Santa Cruz, and Marc Smith, The Social Media Research Foundation.

The workshop will provide insights into the latest advances in the field of social media social roles, structures, and reputation research. Topics such as: mapping social graphs of social media collaboration, emergence of functional roles via social media interactions, entity discovery in social media networks, techniques for measuring social media role reputation across media and platforms, or techniques for predictive quality rating will be addressed.

Workshop activities will include public debates and brainstorming sessions that will lead to setting a formal agenda for research in the area of functional roles and reputations in social media networks.

The event is free. However, there is limited available seating. Attendance will be first come, first served. If you are interested in attending this workshop please contact Sorin Matei @ smatei@purdue.edu
