WESTWOOD
Westwood Estate is home to Purdue President, Mitch Daniels. It also serves as an event space for private social events for distinguished guests. The home was donated by Purdue’s then vice president for business and finance R.B. Stewart. It was built in 1932 and has been home for the five most-recent university presidents.

ROSS-ADE STADIUM
Nestled on the northern edge of the Purdue University campus, Ross-Ade Stadium is the home of Boilermaker Football. From 2001 to 2003, Ross-Ade underwent a $70 million renovation that has made it one of the most attractive and fan-friendly facilities in all of college football. Ross-Ade was dedicated Nov. 22, 1924, in a game against intrastate rival Indiana (the Boilermakers won 26-7). The stadium is named for its two principal benefactors, alumni David E. Ross, late president of the Board of Trustees, and the late George Ade, playwright and humorist. It was Ross who conceived the idea for the stadium and selected the site. He and Ade purchased and presented to the university the 65-acre tract on which the stadium is located.

CELERY BOG
Lilly Nature Center in Celery Bog Nature Area is located along the Lindberg Road in West Lafayette. The Celery Bog Nature Area contains approximately 195 acres of wetlands, adjacent woods and fields. It provides an excellent field trip destination where many interdisciplinary topics can be studied by groups of all ages.

WEA CREEK ORCHARD
Wea Creek Orchard was begun as an orchard in 2008, growing apples, peaches, nectarines, pumpkins, and hops. The land upon which the orchard was planted came into the existing family in the mid 1800s and many of the original buildings still exist. The area was used extensively as a hunting ground and staging site for native Americans, as evidenced by stone tools and weapons dating back to roughly 8,000 years ago found recently on site. Wea Creek Orchard remains a state registered Archeological site.
