

**Report of AY faculty/staff with no summer salary**

The ZHR\_NOAYSUMMER report will provide business offices with a report of AY eligible faculty/staff with no summer salary entered (wage type 1315). This QRC lists the steps for running the query prior to summer payroll processing each month to validate the cost distribution. Cost distribution during June or July pay periods with no summer salary must not be on sponsored research funds and a cost distribution change is required.

**To display cost distribution of AY faculty/staff with no summer salary on IT0015:**

Type tcode:  
"zhr\_noaysummer" in the  
command field and hit  
"Enter."

Under the "Payroll Period"  
tab, change "period" to  
reflect the pay period you  
are pulling report for.  
Example: to review June  
2010 – enter as 06 2010  
and hit enter. You will then  
see the payroll area dates  
change to reflect the  
current payroll dates for the  
period selected. You must  
enter only one pay period  
at a time.

In the "Selection Criteria"  
tab, enter a PERNR if you  
want to search on an  
individual staff member,  
otherwise leave all blank.

Under the "Program  
Selections" tab enter your  
org unit number. All other  
fields should remain as  
populated.

Verify if any employees have a cost distribution record on a Sponsored Research Grant during the summer period selected. If so, you must change the IT0027 Cost Distribution for that period to the account the faculty/staff is normally paid during the AY year. Example: Faculty normally paid on general funds during academic year, if not working summer during that pay period, change IT27 back to 21010000 fund. Remember, always use the COPY function to make changes.
