

The 2012 Community of Service Learning Faculty Fellows Presents:

Evaluation in Service Learning

During this workshop, evaluation of service learning will focus on three parties: the students, community partners, and faculty. Building from the core principles of service learning, the participants will be discussing the challenges and opportunities that are present in evaluating service learning projects. The presenters will describe various methods of student reflections, building relationships with community and obtaining feedback, and how faculty scholarship can emerge from implementing service learning.
