What is it?
An NIH funded institute that serves as a statewide laboratory.

Mission
Increased translational research to improve the health (and economy) of Indiana.

Indiana CTSI partners
Our Clinical and Translational Science Institute (CTSI) supports the entire state of Indiana with collaborative leadership by the Life Sciences and Engineering Schools of Indiana University (IU), Purdue University (PU) and Indiana University and Purdue University at Indianapolis (IUPUI), along with key community and business partners from the state.

Access to its resources
CTSI ‘HUB’
