

**Robin Mills Ridgway**

Robin Mills Ridgway, Ph.D., P.E., is an environmental regulatory consultant and environmental engineer employed by Physical Facilities Radiological and Environmental Management/Utilities at Purdue University. She assists and advises the university with environmental compliance with state and federal regulations, including the Clean Air Act and the Clean Water Act. She also provides technical guidance and recommendations to the university's Wade Utility, which provides heating and cooling and approximately half of the electricity for Purdue's West Lafayette, Ind., campus. She is a licensed professional engineer in Indiana. Dr. Ridgway earned her doctorate in environmental engineering from Purdue University.
