Nano in Your Neighborhood

Through July 23

This spring, Purdue University will showcase nanotechnology in the Indiana State Museum's Tomorrow's Indiana gallery. *Nano in Your Neighborhood: A Large Exhibit on a Small Scale* explores how nanotechnology affects the world around us. "Nano," is a prefix meaning "one billionth." Take your students for a walk through this fictional neighborhood and discover all the amazing possibilities nanotechnology offers. *Nano in Your Neighborhood: A Large Exhibit on a Small Scale* was developed by Purdue University.

DID YOU KNOW?

Hammond, Ind., is named in honor of Detroit butcher and meat-packer George H. Hammond.
