Purdue Day in Chicago - An Overview of Discovery Park
Saturday, June 14, 2003

The Field Museum
Montgomery Ward Theatre
1400 S. Lake Shore Dr, Chicago, IL 60605-2496

Discovery Park is proud to share its vision and excitement at Purdue Day in Chicago on Saturday, June 14 at The Field Museum. To learn more about Discovery Park, please login to website www.purdue.edu/discoverypark. The event is free and we invite leaders of high tech corporations, researchers and students to attend it. Please login to website at https://www.conf.purdue.edu/schedule/register/master.cfm?EventID=19617 for free registration. Lunch will be provided at no cost. For directions to the Field Museum, please visit http://www.fmnh.org/plan_visit/get_here.htm

What if there was a place where vision met technology? Where passion guided science and ideas were fueled by imagination. What if all the elements for discovery came together with the power to change the way we see the world? With this idea, Discovery Park was conceived in Spring 2001 under the new leadership of Purdue President Martin Jischke and it is uniquely designed to foster meaningful development. There is a place where ideas are coming together with science and technology to forge new frontiers. That place is Discovery Park. At Discovery Park, we’ve brought together the brightest minds in a diverse range of disciplines, including nanotechnology, bioscience, e-enterprises, and entrepreneurship. This cross-pollination means that we can translate our discoveries into meaningful tools for growing businesses and reaching new markets. We can develop solutions to real-world problems for societal benefit.

No one knows what the future will hold, but one thing is certain - It will happen here at Discovery Park.

Schedule
2:30 pm --- Purdue University Research for the 21st Century and Discovery Park
