

# The Regenstrief Center for Healthcare Engineering

## 2009 Request for Proposals

In January 2009, the Regenstrief Center will solicit research proposals from faculty at all Purdue campuses for investigative work with the potential for significant improvement in the healthcare delivery system. Approximately \$240,000 has been allocated for the 2009 funding cycle for up to six projects. Topics of particular interest include primary care access, acute care efficiency, chronic care management, patient safety and population health.

- ▷ **Intent-to-Submit email due on January 21.**
- ▷ **Full proposal due on February 4.**
- ▷ **PIs notified of awards on March 12.**
- ▷ **Funding available on July 1, 2009.**

Requirements, templates and examples of previously-funded RCHE research projects will be available in December at [www.purdue.edu/rche](http://www.purdue.edu/rche).

Questions? Contact Professor Leroy B. Schwarz, RCHE Academic Director, [LSchwarz@purdue.edu](mailto:LSchwarz@purdue.edu).
