

## Energy Center Membership Benefits and Agreement

### The Energy Center Agrees to Provide:

- Access to professional administrative staff assistance and related resources needed for successful development of large, long-term, multi-investigator research proposals.
- Leadership and project management for center and program grants.
- Access to seed funding when available.
- Endorsement letters for internal and external funding opportunities
- Connectivity to State funded energy initiatives such as the State Utility Forecasting Group and the Center for Coal Technology Research.
- Information about major funding opportunities; potential areas for collaboration; shared scientific expertise and capabilities associated with the Research Core facilities.
- Opportunities for input of ideas and directions for new grant initiatives.
- Information about other researchers and research initiatives.
- Help in developing corporate and university consortia.
- Invitation to and sponsorship for symposia and seminars.

### Energy Center Members Agree to:

- Acknowledge affiliation with the Energy Center (EC) on all publications and presentations related to work utilizing EC funding, shared facilities or EC facilitated relationships (EC related work). An example follows:  
 Title of Research Paper or Report  
 First Author, Second Author, etc.  
 Department of Physical Biochemistry  
 and the Energy Center at Discovery Park  
 Purdue University, West Lafayette, IN
- Ensure that the EC receives center/institute credit on relevant proposal submissions. This is implemented on page three of the Proposal Submission Form.
- Maintain a current short CV or bio on file with the EC’s central office, and allow their name to be listed in the EC online expertise directory
- Maintain an up-to-date record of papers, presentations, students, collaborations, proposals, and research grants that involve work EC related work.
- Support EC symposia, lectures, and related functions by providing posters, attending, and assisting with speaker selection and invitations
- Participate in the scholarly activities and contribute to the intellectual climate of the EC.
- Allow other EC members to utilize their laboratory equipment, subject to development of mutually agreeable terms in collaboration with the EC director.
