

Jennifer Hicks

Science Curriculum Specialist
Indiana Department of Education
jhicks@doe.state.in.us

Jennifer received a B.S. in Biology from Indiana University in 1988 and a Ph.D. in Visual Sciences from Indiana University in 1995. She pursued postdoctoral research at Washington University in St. Louis from 1995-1999 and was funded by a National Institutes of Health Postdoctoral Fellowship for four years. Jennifer then pursued high school teaching in California from 1999-2007 and currently holds a Life Science Single Subject Credential in California. She has taught high school courses in Biology, Earth Science, Chemistry and Marine Biology, organized and instructed a middle school biotechnology science camp, and taught at the college level at IU-Bloomington and Webster University in St. Louis. Jennifer is currently the Science Curriculum Specialist for the Indiana Dept. of Education.
