NEWS/OPPORTUNITIES AT PURDUE

SPEAKER – MADELINE LEWIS

Lewis is from Purdue University
Thursday, January 26, from 3:30 – 4:30 p.m.
HAMP 1252

VIRTUAL CAREER PANEL HOSTED BY THE CENTRAL INDIANA CHAPTER OF AWGI

Save the date for a virtual career panel hosted by the Central Indiana Chapter of AWG! The event will be held on Thursday, February 2 from 12 - 1pm and will feature discussions about entering a career in geosciences, navigating career advancement, and opportunities for women in the Geosciences. The panel is suitable for students and all career levels.

Our featured panelists include:

- **Sam Henderson**, LPG: Project Manager, EnviroForensics
- **Rachel Walker**, PhD, LPG: Senior Project Geologist, Mundell & Associates
- **Jin Wang**, PhD: Risk Services Section Chief, IDEM

Registrants will receive a Zoom link to attend the event. Contact us at cicawg@gmail.com for more information.

MRCC PAID SUMMER UNDERGRAD INTERNSHIP

Details below. **Submit by Feb 6, 2023.** Send questions & applications to mrcc@purdue.edu

MRCC 2023 Summer Intern – Climatologist

Position: Student hourly
Salary: \$15/hour; 40 hours/week
Location: West Lafayette, Indiana (must be in-person); Purdue University

Availability: Must commit to a minimum of 8 weeks. Up to 13 paid weeks are available. Internship period run from May 15, 2023 – August 11, 2023.

Primary Function of Position: To serve in a support role within the service and research-based environment at the Midwestern Regional Climate Center (MRCC).

Duties & Responsibilities: This position is designed to expose the intern to the range of activities performed by the MRCC. The intern will assist MRCC climatologists with outreach and education activities (e.g., social media, marketing of products and tools), in responding to data and information requests in the MRCC service office, and with applied research projects.

Education Requirement: This position is open to anyone currently enrolled as a sophomore or above in an atmospheric sciences or related field program. Graduating seniors are eligible only if they have been accepted to a graduate degree program and they will begin that program no later than Fall 2023.

Experience Requirement: A strong interest in climatology is preferred, as well as an interest in climate outreach and education. Strong communication skills are required for this climate services and outreach environment.

Knowledge Required: Experience with word processing and spreadsheet software. Encouraged: Experience in computer programming, scripting, and statistical packages.

Decision Timeline: Top candidates will be invited for a virtual interview in mid-February. Internship offer letters will be sent no later than February 28, 2023, and candidates will be given 10 days from when they receive their letter to accept or decline the offer. The MRCC expects to hire up to 2 student interns for Summer 2023.

Logistics: Interns will be responsible for their own travel to/from West Lafayette and responsible for their own housing. Interns are eligible to apply for student housing through Purdue University.

Contact Information: A cover letter, resume, and the names of up to three professional references should be submitted electronically via email no later than 12 PM Eastern on February 6, 2023. The applicant's last name must be included within each file name.

Applications should send all materials to:
Midwestern Regional Climate Center
mrcc@purdue.edu

MS AND PHD EAPS STUDENTS BROADEN YOUR GRAD EXPERIENCE

For those MS and PhD students in EAPS that would like to broaden their graduate experiences while at Purdue, EAPS is affiliated with the Computational Interdisciplinary Graduate Programs (CIGP) at Purdue. While working toward a graduate degree in EAPS, graduate students can also have a concentration (specialization) in the area of Computational Science and Engineering (CSE). For more information, [click here](#). A short video about the CIGP/CSE program can be found [here](#).

Spring Application Deadline: March 1

Fall Application Deadline: October 1

STEM TEACHER RESIDENCY PROGRAM BECOME A STEM TEACHER IN 18-MONTHS

Purdue's Indianapolis STEM Teacher Residency program, in partnership with Indianapolis Public Schools, aims to strengthen the educational outcomes of students in one of the largest urban school districts in Indiana. We will prepare you to become a culturally competent, highly qualified teacher who will elevate student achievement in middle and high school science, technology, engineering, and mathematics (STEM). After successfully completing the program, graduates must commit to a three-year STEM-related teaching position with Indianapolis Public Schools.

GET PAID TO CONTINUE YOUR EDUCATION

- Stipend: \$46,500
- Program Cost: (\$16,875)
- Remaining Stipend for Living Expenses: \$29,625

100% ONLINE COURSEWORK AND IN-PERSON STUDENT TEACHING

- Master of Science in Secondary STEM Education
- Graduate Certificate in K-12 Integrated STEM Education
- Initial Teaching Licensure

MEETINGS/EXPOS/ OPPORTUNITIES OUTSIDE OF PURDUE

2023 COMMUNITY SOURCED DIRECTORY

We have launched the 2023 COMMUNITY SOURCED DIRECTORY of Research Experiences for Undergraduate - REU! This is to support students in finding powerful and well-supported Research Experiences. Furthermore - the directory includes many aspects of accessibility and identity that can help all our students. **A new column this year is if a program has opportunities for non-US Citizens.** [You can access v04 for Summer 2023 posted here.](#) Subsequent versions will be posted ~weekly into March. While a majority of these are NSF funded, a growing number are funded by a wide range of organizations/institutions, and have a growing range of formats.

We recommend that users review the column headers (listed below), in order to help them find programs that fit their identities and needs, and that they can reach based on their exams / university calendars. A student in a quarter program should avoid programs that start in early May, and vice versa for students in semester programs who need to be in class in late August/September.

PROGRAM CHARACTERISTICS

- ACCOMMODATION provided
- TRAVEL costs provided/reimbursed
- FOOD provided
- Overnight OFF-SITE travel required
- INTERNATIONAL - requires passport
- OUTDOOR field work
- Working on/in WATER - know how to swim
- DRIVING - license required
- COVID VACCINATION required
- OTHER

STUDENT CHARACTERISTICS

- Rising SOPHOMORES
- Rising JUNIORS
- Rising SENIORS
- 2-YEAR Coll. Students
- 4-YEAR Coll. Students WITHOUT grad program
- 4-YEAR coll. students WITH grad program
- Post Baccalaureate (with degree / already graduated)
- PRIOR Research Experience
- NO prior research experience
- TEACHERS or other professionals
- VETERANS
- MINORS (<18)
- NON US CITIZENS (opportunities available)
- OTHER

ACCESSIBILITY

- Encouraged Applicant Identities
- Have not made accessibility plan
- YES, accessible to DEAF / ASL
- MOBILITY-AID/ WHEELCHAIR
- Yes - GUIDE DOGS SERVICE ANIMALS
- Accommodate FOOD RESTRICTIONS

OTHER SUPPORT

- Stipend
- Describe additional supports provided by the program, which may include support for conferences attendance, early admission pathway to graduate program, support with research transition to senior thesis work, support for publication fees, etc.
- Describe the plan for the REU should COVID restrictions limit in-person/on-site activities.

SUMMER 2023 UNDERGRADUATE REU

Are you looking for a summer research internship studying ocean, coastal or environmental science? I invite you to check out the Maryland Sea Grant Summer REU program. We bring upper-level undergraduate students to the Chesapeake Bay to conduct individual research projects with a scientist-mentor at the University of Maryland Center for Environmental Science. We select

undergrads in many disciplines, including engineering, biology, chemistry, physics, mathematics, ecology and marine and environmental science.

Our program runs for 12-weeks from May 22 to August 13, 2023.

Each REU fellow will receive:

- \$7,200 stipend
- Free housing at your research lab
- Round-trip travel expenses

In particular, **we encourage students from colleges and universities where access to marine science and to research opportunities is limited and who are from groups traditionally underrepresented in science, technology, engineering and math.** We believe bringing together students from many disciplines, backgrounds and parts of the country makes for a more interesting and educational summer experience.

We are accepting applications for the 2023 class now through February 15. We held our first in-person REU this past summer and expect to hold summer 2023 in-person as well. We recognize that the state of the pandemic may impact how the program operates. Please visit our website to find out more (www.mdsg.umd.edu/reu) or drop me a note at reu@mdsg.umd.edu.

**NWS FORECAST OFFICE IN PADUCAH, KY
SEEKING TO RECRUIT UP TO FOUR STUDENT
VOLUNTEERS FOR THIS SUMMER**

Student Volunteers Needed!
Volunteer at NWS Paducah During Summer 2023!
The National Weather Service in Paducah, KY, is seeking up to four student volunteers to help us with important projects and to experience working at an NWS office! The volunteer experience can be either virtual or in-person.

Qualifications:

- ✓ Be enrolled at least half-time in an atmospheric science or meteorology program at a college or university.
- ✓ Have completed your sophomore year.
- ✓ Be available to volunteer around 8 hours per week between June 5 and August 4, 2023.

How to Apply:
 Visit our website or scan the QR code:
www.weather.gov/pah/studentvolunteers
 Application deadline is March 10, 2023.

**FELLOWSHIPS IN GEOPHYSICAL FLUID DYNAMICS AT
WOODS HOLE OCEANOGRAPHIC INSTITUTION
June 20 to August 25, 2023**

| | |
|--|--------------------|
| <p>http://www.eaps.purdue.edu/</p> | <p>Page 3 of 8</p> |
|--|--------------------|

Since 1959 the GFD program has promoted an exchange of ideas among researchers in the many distinct fields that share a common interest in the nonlinear dynamics of fluid flows in oceanography, meteorology, geophysics, astrophysics, applied mathematics, engineering and physics. Each year, the program is organized around a ten-week course of study and research for a small group of competitively selected graduate-student fellows. The overall philosophy is to bring together researchers from a variety of backgrounds to provide a vigorous discussion of concepts that span different disciplines, and thereby to create an intense research experience. For the student fellows, the centerpiece of the program is a research project, pursued under the supervision of the staff. At the end of the program, each fellow presents a lecture and a written report for the GFD proceedings volume.

The Program commences with two weeks of Principal Lectures focusing on a particular theme in GFD. **For 2023, the theme is "GFD on Other Worlds"** and the lecturers will be Heather Knutson (Caltech), who will concentrate on recent observations from other worlds, and Geoff Vallis (University of Exeter), who will review our theoretical understanding of GFD on other worlds.

Up to ten competitive fellowships are available for graduate students. Successful applicants will receive stipends of \$7,793 and an allowance for travel expenses within the United States. A small number of unpaid fellowships may also be available for strongly qualified students who can support themselves financially. **The application deadline is February 1, 2023.** Awards will be announced by March 31, 2023. We seek applicants from all areas of Geophysical Fluid Dynamics, and particularly encourage applications from women and members of underrepresented groups. It is expected that fellows will be in residence for the full ten weeks of the program, and that visitors will spend extended periods of at least one week participating in the program. Further information and application forms may be obtained at <https://gfd.whoi.edu>, or by writing to: gfd@whoi.edu

Prospective visitors should contact Tiffany Shaw at tas1@uchicago.edu, or Pascale Garaud at pgaraud@soe.ucsc.edu

WHOI is an Equal Employment Opportunity/Affirmative Action Organization. The GFD Program is funded by the National Science Foundation and the Office of Naval Research.

UIUC'S SUMMER RADAR CAMP

Attention upper division undergrads and grad students: Application deadline is February 15, 2023.

The 1st Annual UIUC Dept. of Atmos. Sci. FARM Facility Radar Institute!
Held in-person at the University of Illinois Urbana-Champaign campus
From June 18 – July 1, 2023

Using the Department of Atmospheric Sciences FARM Radars and other FARM instrumentation, you will have the opportunity to:

-  Learn about radar operations and theory
-  Learn about planning field campaigns
-  Learn about observation strategies and radar scan modes
-  Plan and execute a small field campaign
-  Learn about analysis techniques
-  Analyze DOW and COW radar data

Applications are open to undergraduate students. Students who have completed two years of college course work and are majoring in a science, technology, engineering or math field are encouraged to apply. No prior research experience is required.

Application Deadline:
15 Feb 2023; 23:59 CT

Email Application to:
kakosiba@illinois.edu

To Apply:

-  1-page Statement of Interest
-  CV
-  1 Recommendation Letter
-  Academic Transcript

If you are selected to participate, you will receive travel support, on-campus lodging, and per diem.

SCHOLARSHIPS AVAILABLE - AWG BRUNTON AWARD AND BRUNTON FIELD PROJECT AWARD

The AWG Brunton Award and Brunton Field Project Award promote the future of field mapping and data acquisition for the upcoming generation of people whose gender identity has been historically underrepresented in the geosciences. Applicants should have a passion for and exceptional experience with field work, including internships, field camp, coursework with a field-based research component, or research. The AWG Brunton Award has been active for >20 years and provides Brunton compasses to 1–2 awardees each year. The AWG Brunton Field Project Award started in 2022 and awards a Brunton compass and up to \$1000 to support field activities to each of 1–2 awardees each year.

**MASTER OF ARTS IN TEACHING EARTH SCIENCE
RESIDENCY PROGRAM ACCEPTING APPLICATIONS**

[The Master of Arts in Teaching Earth Science Residency Program](#) in the Richard Gilder Graduate School at the American Museum of Natural History in New York City is looking for graduates with Earth and space science backgrounds (geology, mineralogy, paleontology, oceanography, astronomy, environmental geology, and more) who want to make a difference in the world of STEM education. This teaching fellowship combines coursework, mentoring, and real-world experience to prepare Earth and space science graduates for rewarding careers as culturally responsive middle and high school teachers. **All degree candidates will receive free tuition, books, and a \$30,000 living stipend.** In return, candidates commit to teaching in a high-needs school for three years. With a sole focus on preparing new Earth science teachers, the program is a full-time, 15-month Master's degree program that takes place at the Museum and in urban partner schools. We seek a student body with a passion for social justice and diverse life and career experiences. We are currently accepting applicants for the class that will begin in June 2023. Prospective students are encouraged to attend an Information Session or to contact us for more information. You can also visit the program website to learn more and/or join our mailing list (make sure to click MAT for Earth Science Grads). For questions, you can contact the program office directly <mailto:atmat@amnh.org> or (212) 313-7464.

POSITIONS AVAILABLE- CAREER OPPORTUNITIES

WATCH DESK OFFICER

Requisition ID:320982

Location: Indianapolis, IN, US, 46204

Indiana Department of Homeland Security:

Salary: This position starts at a minimum rate of \$22.00 per hour and may be commensurate with education and experience.

About the Job: The purpose of the Watch Desk Officer is to collect, evaluate, analyze, and

disseminate information to support local, state, and federal public safety agencies in mitigating, preparing for, preventing, responding to, and recovering from natural or man-made incidents and disasters. The State of Indiana is an Equal Opportunity Employer. [More info.](#)

**WEATHER, OCEANOGRAPHY, AND CLIMATE CHANGE
INSTRUCTOR AT PORTLAND COMMUNITY COLLEGE**

Portland Community College is seeking a full-time general science faculty member to provide culturally responsive instruction in support of PCC's Mission and Values. The successful candidate will be a dynamic instructor who can build an environment that inspires and communicates a love of physical science to a diverse group of students. There will be opportunities to provide input and collaborative leadership in the areas of curriculum and program development, mentoring, virtual learning, college-wide initiatives, community outreach and educational research. The ideal candidate will have a background in meteorology, oceanography, and climate studies, as well as experience with aviation weather forecasting. The new instructor in this position will teach classes at the Rock Creek campus, and fully-online, to support general education as well as PCC's Aviation Science program. The earth sciences departments are currently in a state of renewal, and this is a rare opportunity to help shape the future growth of the program for the 21st century. [More info.](#)

**MILLERSVILLE UNIVERSITY –
TENURE TRACK ASSISTANT PROFESSOR OF
METEOROLOGY (BEGINNING AUGUST 2023)**

Millersville University - Tenure Track Assistant Professor of Meteorology (Beginning August 2023) The Department of Earth Sciences in the College of Science and Technology welcomes applications for a Full-Time Tenure-Track Assistant Professor position beginning August 2023. Responsibilities include teaching, advising students, scholarly or creative work and department and university service. Actual assignments will depend upon department needs. The successful candidate will have a strong interest in teaching undergraduates (12 contact hours of instruction each semester), involvement of undergraduates in their research program, mentoring and advisement of undergraduates, and participation in recruitment activities. The department, college, and university cultivate a safe, open and inclusive environment and are committed to hiring a diverse candidate. [More info.](#)

**POST-DOC POSITION OPEN AT MIT IN THE FIELD OF
ATMOSPHERIC DYNAMICS**

The research tackles questions on the interface between weather and climate. Topics include but are not limited to:

- Midlatitude storm tracks, Rossby Wave Breaking events, atmospheric circulation regimes, and their projected changes.
- Temperature variability, climate and weather extremes, dynamics of heat waves.
- Subseasonal-to-seasonal predictability

For more information about the position, please contact Talia Tamarin-Brodsky at taliatamarin@gmail.com. Applications from women and under-represented minorities are strongly encouraged. Please include a detailed CV and a list of references in your application. Job Requirements: Ph.D. in atmospheric sciences or a related field by the date of hire. Strong background in atmospheric dynamics/geophysical fluid dynamics is an advantage. Demonstrated ability to carry out creative, innovative, independent research, and to publish in peer-reviewed literature, and effective written and verbal communication skills. [More info about positions at MIT.](#)

SENIOR GEOSCIENTIST AT FREEPORT-MCMORAN
Freeport-McMoRan is a leading international mining company with headquarters in Phoenix, Arizona. We operate large, long-lived, geographically diverse assets with significant proven and probable

reserves of copper, gold, and molybdenum. The company has a dynamic portfolio of operating, expansion and growth projects in the copper industry. Freeport-McMoRan is one of the world's largest publicly traded copper producers, the world's largest producer of molybdenum and a significant gold producer. We have a long and successful history of conducting our business in a safe, highly efficient and socially-responsible manner. Please note: This position has the possibility to work remotely up to 100% of the time. [Apply here.](#)

**ASSISTANT OR ASSOCIATE PROFESSOR
ATMOSPHERIC AND PLANETARY SCIENCES –
HAMPTON UNIVERSITY**

The Hampton University (HU) Department of Atmospheric and Planetary Sciences (APS) invites nominations and applications for two tenure-track faculty positions at the rank of Assistant or Associate Professor beginning January 2023. Founded in 1868, Hampton University is a leading historically black university (HBCU) located on the Virginia Peninsula in the City of Hampton. It is a privately endowed, co-educational, nonsectarian institution. HU established the Center for Atmospheric Science (CAS) in 1996, which led to creation of the Department of Atmospheric and Planetary Sciences in 2007. APS offers M.S. and Ph.D. degrees in the fields of Atmospheric Science and Planetary Science. This program has established a reputation of excellence in education, outreach and research, with particular emphasis on satellite applications for atmospheric studies. [Learn more here.](#)

BRYAN ENVIRONMENTAL CONSULTANTS

Homewood, IL

SEEKING PART-TIME TO FULL-TIME POSITIONS

- Bachelor's or Master's degree in environmental engineering, civil engineering, geotechnical engineering, geology
- Knowledge of State and Federal environmental regulations a plus
- Experience with Phase I and II Environmental Site assessments a plus
- Strong writing skills
- Proficient in all Microsoft Office applications
- Must have cell phone and computer (laptop)
- Valid Driver's License

**POST-DOC OPPORTUNITY - AIR FORCE SCIENCE
& TECHNOLOGY FELLOWSHIPS**

The National Academies of Sciences, Engineering, and Medicine administers postdoctoral and senior research awards at the U.S. Air Force Research Laboratory (AFRL), the U.S. Air Force Institute of Technology (AFIT), and the U.S. Air Force Academy (USafa) under the [Air Force Science & Technology Fellowship Program \(AF STFP\)](#).

Seeking highly qualified candidates who are U.S. citizens and hold, or anticipate earning, a doctorate in a variety of fields of science or engineering.

Application deadline dates (four annual review cycles): February 1, May 1, August 1, November 1

Awardees have the opportunity to:

- Conduct independent research in an area compatible with the interests of the Air Force laboratories
- Devote full-time effort to research and publication
- Access the excellent and often unique Air Force research facilities
- Collaborate with leading scientists and engineers

- Awardee benefits:
- Base stipend starting at \$76,542; may be higher based on experience
- Health insurance (including dental/vision), relocation benefits, and a professional travel allowance

Applicants should contact prospective AFRL, AFIT and USAFA Research Adviser(s) at the lab(s) prior to the application deadline to discuss their research interests and funding opportunities.

For detailed program information, to search for AFRL, AFIT, and USAFA Research Opportunities, and to contact prospective Research Adviser(s), visit www.nas.edu/afstfp.
