

EAS Fall 2006 Seminar Schedule

For a complete list of EAS events including abstracts and locations, please see our Seminars and Events Calendar:

<http://www.science.purdue.edu:8085/eas/seminars>

Date	Time	Speaker	Topic
Aug. 24	3:30	Dr. Wen-yih Sun, EAS, Purdue	Atmospheric Models and Applications
Aug. 31	3:30	Dr. Feiquin Xie, Postdoc EAS, Purdue	Characterizing the Earth's Atmosphere Using GPS Occultation Measurements
Sept. 7	3:30	Dr. Ernest Agee, EAS, Purdue	2D or not 2D Convection?: That is the Question!
Sept. 14			
Sept. 21			
Sept. 28	3:30	Andreas Dornbrack, Inst. Phys & Atmos., Germany	Fine Structures of Extratropical Cyclones
Oct. 5	3:30	Cindy Ebinger, Univ. London	(title)
Oct. 6-Fri		Prof. Lakshminarayanan, Univ Oklahoma	On the Structures of Energy Conserving Low-Order Models
Oct. 12	3:30	James Ni, New Mexico State Univ.	Seismic Structure and Anisotropy beneath Tibet: Implication of Top-down Tectonics
Oct. 19	4:00	Prof. Amos Nur, Stanford Univ.	Oil and War: Oil Peak vs Oil Panic
Oct. 26	3:30		
Nov. 2	3:30	Claudia Mora, Univ. Kentucky	Tempest in a Tree Ring: an Isotopic Record of Past Hurricanes
Nov. 9	3:30	Tom Boutton, Texas A&M Univ	Grassland/Woodland Transitions in Subtropical North America: Implications for the Carbon Cycle
Nov. 16	3:30	Bill Holt, Stony Brook	TBA
Nov. 23		Thanksgiving Holiday	
Nov. 30	3:30	Dr. Jeff Trapp	Climate Change and Severe Storms
Dec. 7	3:30	Cari Johnson, Univ. Utah	Sedimentary Response to Arc-Continent Collision, Permian, Southern Mongolia
