  – View on mobile devices
TIMELINE

End of Spring/beginning of summer ‘12
Alpha testing

Summer/early fall ‘12
Beta Testing

Spring ‘13 (Tentative)
Roll Out
- Registration functionality that provides students an option to place themselves in a priority queue for a section offering that has reached it.

- Section based – CRN specific.

- Not automated; action required – Student must take action in myPurdue to add the course offering once they receive an email notification is sent to drop/add this course.

- Functionality to provide the ability to waitlist themselves for a course when it is closed due to enrollment.
• Duplicate course error checking enforced – cannot waitlist for multiple CRN’s of the same offering

• Time conflict error checking not enforced – can waitlist for a section offered at the same time as another

• Prerequisite error checking not enforced – cannot waitlist for a section which has prerequisites
WAITLISTING CONT.

**PROCESS**

- Student waitlists for an offering and obtains any overrides needed
- Student may reference their priority number on their detailed schedule through myPurdue
- Instructors can view waitlisted student through their course roster
- When space become available, student receives an email notification
- Student has 16 hour time window to take action to register

*No action in that window result in student name removed from waitlist, and next student is notified*
• Waitlist functionality will open to any single instructional course offering
  * all courses that are not linked, no co-req’d and not cross listed are available

• **Begins** – Monday, July 23 (after STAR) at 8:00 am
• **Ends** – Friday, August 17
