

APPENDIX C

PURDUE UNIVERSITY SCHOOL OF TECHNOLOGY STATEWIDE SYSTEM HISTORICAL ENROLLMENT 1984-85 TO 2000-01

In 1984, the School of Technology Statewide system was first offered and 175 students enrolled at three sites. Technology Statewide is administered by the West Lafayette campus.

Increases in enrollment and the addition of new sites across the state of Indiana have contributed to rapid growth. In 1988, enrollment increased considerably, reflecting the transfer of former Guest/Host programs to Technology Statewide. By 2000-01, 1,769 students were enrolled at ten different sites.

Opening fall enrollments for each year are reported below.
