## Holds

What is a hold? A hold is a way that Purdue makes sure a necessary action is completed. Holds prevent you from registering for classes, so be sure to take care of any and all holds marked on your account!

Below are some common holds that you may see during this time of the year, and some info on how to get rid of them. More information about holds can be found on the [Registrar's website](#).

### **Emergency Contact Hold**

You need to update or verify your emergency contact information.

### **Financial Responsibility Hold**

You need to affirm your financial responsibility for coursework at Purdue.

### **Immunization Hold**

Your immunization records must be updated in your Purdue account or you are missing a specific required immunization.

Call the PUSH Immunizations Compliance line at 765-494-1837 for more information about your immunization hold.

## Information and Career Fairs

Attending a career fair is valuable for networking with potential employers, exploring diverse career options, and gaining valuable insights into the job market. It also provides an opportunity to make a memorable impression, practice interviewing, and access unadvertised job opportunities.

## Spring 2024 Registration

Be on the lookout for instructions from your advisor about registration for Spring 2024. It is important that you come to your appointment prepared. Be ready to talk about which majors you are considering and have an idea of which classes you want to take. Most importantly, do not forget to show up to your registration appointment!

All students must have their requests submitted in the Scheduling Assistant by November 16th for batch registration.

## Study Resource - Boilerexams

Boilerexams is a studying platform created by Purdue students for Purdue students. It includes practice exam questions (based on either specific topics or a specific exam) with tutorial videos explaining the solution. This study resource is available for students in math (MA 16010, MA 161 through MA 266), CHM 115, CS 159, and PHYS 172. Check out the [Boilerexams website](#) to explore and learn more!
