DISPOSITION: University Senate for Information

Purdue University's commitment to the academic and social well-being of its student-athletes is focused through the activities of the Athletic Affairs Committee (AAC) and Intercollegiate Athletics (ICA). This report covers the two regular semesters in the year that has passed since the last report from the AAC: the Fall 2019 Semester and the Spring 2020 Semester.

FACULTY OVERSIGHT OF ATHLETICS

Faculty oversight of ICA continues to be exercised through the AAC. The 2019-20 and 2020-21 membership of the AAC, listed in *Appendix 1* of this report, includes representation from faculty, an appointed liaison from the Student Affairs Committee of the University Senate, a liaison to the President, alumni, citizens from the local community, Purdue University students, and ICA senior staff. The AAC monitors the academic progress of the student-athletes and the efforts of ICA to provide outstanding opportunities to learn, compete, and develop personally. The AAC was briefed on the academic status of each sport program and received updates on the primary NCAA academic metrics, the Graduation Success Rate and the Academic Progress Rate.

At monthly meetings of the AAC, the members hear reports and participate in discussions pertinent to their mandate. All minutes and supporting documents are filed with the University Senate, and thus are readily available for review. The AAC may be asked to study, review and approve changes in Purdue rules and regulations affecting intercollegiate athletics programs, and to formulate positions with regard to legislation pending before the NCAA. The AAC also discusses diverse topics related to Big Ten or NCAA matters, or national news/trends that may affect the status of both university sports programs and the eligibility of student-athletes. A characteristic agenda and a partial list of topics discussed during the current academic year are provided in *Appendix 2*.

The Vice President and Director of Athletics provides additional information related to the strategic plans of the department, including current goals, key progress measures, facilities projects, etc. Elements of the current plan, especially those that pertain to the development and welfare of the students are presented in brief below.

In addition to the AAC meetings, the senior associate athletics director for student services conducts two academic planning meetings each year at which plans and outcomes over a three-year period are discussed. The two faculty athletic representatives (FAR) participate in each meeting, along with members of the senior athletics administrative staff and the athletics student services staff. The purpose of the meetings is to update the FARs on the plans for the academic areas for the next three years. Academic information for the athletics department and for each sports program is reviewed during each meeting. Information from these meetings is conveyed to the AAC as appropriate.

OVERVIEW OF STUDENT-ATHLETE ACADEMIC DATA

Each semester the pattern of student-athlete choice of major, course selection and academic performance is assessed through data reported by the Office of Institutional Effectiveness and compared to comparable data for the remainder of the student body. This report is/will be sent to the President, Provost, Vice-Provost for Learning and Teaching, the Athletic Affairs Committee, FARs and Athletics Director for review. Data for the fall 2019 and spring 2020 is included in Appendix 3.

OVERVIEW OF THE STRATEGIC PLAN FOR INTERCOLLEGIATE ATHLETICS

The Director of Athletics and others from the department often share goals and metrics from the department's strategic plan with the AAC. Some elements of the plan, especially those related to the academic success of the students are reported for the Senate's review. Words in brackets replace personal pronouns that might be misunderstood in the context of this report.

The foundation of the plan lies in the Vision, Mission and Goals of the department.

Vision: A championship-caliber athletics organization that is excellent in all respects and is a consistent member of the “25/85 Club.”

The "25/85 Club" refers to a very small number of elite NCAA Division I institutions that consistently have their teams ranked in the top 25 while graduating their student-athletes at an 85 percent rate as measured by the NCAA Graduation Success Rate (GSR). The GSR is similar to the Federal Graduation Rate, but the yearly cohorts are adjusted as students transfer in or out of the university.

Mission: Developing Champions / Scholars / Citizens

[The department] will engage and inspire all constituencies to support the broader university pursuit of preeminence by attracting and retaining the very best student-athletes, coaches and staff while engaging former student-athletes in an effort to maintain their identity as part of the Purdue athletics family.

The very best [student-athletes] will execute this mission sharing a common set of values – integrity, mutual respect, a belief in hard work and team work, a commitment to inclusiveness – and the courage to lead. They will be the Purdue Athletics’ brand and continue to enhance our reputation while being pleased with every aspect of their experience at the university.

It is expected that [the department] will be a financially self-supporting enterprise that provides the resources for coaches and staff to develop championship programs.

Goals in support of the Departmental Vision and Mission

Athletic

All sports will place in the top 25 nationally. Consistent performance at this level will see us competing for Big Ten and NCAA championships.

[The department] will deliver exceptional support services throughout the athletics department to all student-athletes to ensure they are mentally and physically prepared to absorb the skill development necessary to maximize their potential as students, leaders, and athletes.

Student Athlete Development and Welfare

Student-athletes will maintain a cumulative grade-point average of 3.0 or above each semester while competing to perform at or above the all-campus cumulative grade-point average; all Purdue teams will have a graduation success rate (GSR) equal to or better than sport specific Division I-A GSR while striving to achieve a department-wide GSR of 85 percent or higher.

The athletics academic support services unit operates with a rolling three-year plan. Each year, the athletics academic support services staff reviews and updates the plan to ensure it is meeting the academic needs of the student-athletes and that it helps create the atmosphere and expectation for academic success. The three-year plan provides the opportunity for the staff to modify and update current practices in an organized manner. The three-year plan objectives are reviewed twice a year with both faculty athletic representatives (FARs) and the athletics senior staff to ensure progress is being made. These meetings provide the opportunity for input by the FARs and sport administrators.

Fiscal

All financial resources will be allocated in pursuit of the vision and managed to ensure that [the department recognizes] the expectation to remain self-supporting while providing scholarships, quality academic support services, competitive operating budgets, and comprehensive facilities. Marketing and development plans will be designed and executed to generate revenue.

Equity and Integrity

To promote an atmosphere that upholds and embraces inclusiveness among all constituencies, [the department] will provide champion-caliber participation opportunities that recognize and reinforce gender and ethnic equality for all coaches, staff and student-athletes.

Image

The student-athletes, coaches, and staff will live their shared values as the role models that they are, so that people “experience” Purdue Athletics with respect, admiration, and pride. All decisions will be communicated in a manner to create, project and enhance this strong intercollegiate athletic brand.

NCAA Graduation Success Rate (GSR) Data

The Graduation Success Rate (GSR) serves a purpose similar to the Federal Graduation rate. Both measure graduation within six years for annual cohorts of students. The federal rate does not account for students who transfer from one institution to another and graduate. The GSR does account for these, which provides a more inclusive calculation of academic success.

STUDENT-ATHLETE GRADUATION SUCCESS RATES (GSR)* Graduation Rates for 2009-2012 Cohorts (Published November 2019) () Prior Year

* The GSR permits institutions to subtract student-athletes who leave their institutions prior to graduation as long as the student-athlete would have been academically eligible to compete at Purdue University had he or she remained.

The Academic Progress Rate (APR)

The APR is an NCAA semester-by-semester assessment of academic progress. It is calculated by allocating one point per student for eligibility and one for retention—the two factors that research identifies as the best predictors of graduation. The data are presented on the basis of four-year rolling averages for each team. Teams must achieve an APR score of 930 to avoid NCAA penalties. Teams below 930 are ineligible for NCAA post-season competition and are required to develop and execute an academic improvement plan.

Each student on a roster who is receiving an athletics scholarship earns a maximum of two points per term, one for being academically eligible and one returning to the institution. A team's APR is the total points of a team's roster at a given time divided by the total points possible. The number is then multiplied by 1,000. Thus, a raw APR score of 0.930 is reported as 930 and reflects an approximate 50 percent Graduation Success Rate (NCAA website).
