Natural Resources Resilience
Graduate Studies at Purdue University

SPECIAL OPPORTUNITIES FOR ESE APPLICANTS FOR WHOM THEIR ASSOCIATED ACADEMIC DEPARTMENT WILL BE THE DEPARTMENT OF FORESTRY & NATURAL RESOURCES

We are seeking high quality, motivated individuals for our Natural Resources Resilience Graduate Education Initiative via a set of prestigious fellowships, including the USDA funded National Needs Fellowship Program, and the Fred M. van Eck Scholarship Program. All fellowships provide competitive stipends. The goal of this initiative is to educate outstanding and diverse graduate students in the area of forest and agricultural sustainability and resilience. Applications from women and underrepresented minorities are highly encouraged. NOTE: For students applying to ESE that want to be considered for the specific opportunities noted above, completed applications are due December 10, 2013, which is 5 days earlier than the general application deadline since they have to be routed through additional channels. ALSO, please email Christal Musser before Dec 10, 2013 to give us a heads of your interest.

Potential research topics include:
- Land Use and Land Change
- Invasive Ecology
- Sustainable Biofuel
- Sustainable Water Resources
- Forest Ecosystem Resilience
- Invasion Modeling
- Sustainable Forest Management
- Socio-Economic Behavior

To learn more about the Sustainable Natural Resources Graduate Education Initiative, email us at sfei@purdue.edu. Deadline for Fall 2014 application is December 10, 2013.
