New Research Study on Learning

Would you like to be involved in experimental research and help toward the discovery of new training techniques for Parkinson’s disease?

We are looking for healthy individuals between the ages of **45 and 80 years-old** to serve in a control condition for a new research study conducted by the Laboratory for Computational Cognitive Neuroscience at Purdue University.

The experiment is computer-based and requires a commitment of about 1 hour. The experiment is conducted on campus at Purdue University (West Lafayette).

You will be compensated **$25** for your participation.

If you are interested and would like to find more about the study, please contact Madison Fansher by email (ccnlab@purdue.edu) or Dr. Helie (765-496-2692, shelie@purdue.edu). Contacting Madison or Dr. Helie implies no obligation on your part.
