Dear Member of the College of Health and Human Sciences Community,

I am pleased to announce the search for the dean of the College of Health and Human Sciences. The College was founded July 1, 2010 with the merger of nine departments and schools from three colleges. Inaugural Dean Christine M. Ladisch was appointed to a two-year term. Under her leadership and with the support of all of the College's stakeholders, we are off to a great start. New facilities, an emerging college culture, and the discovery and nurturing of new synergies around the theme of human health all bode well for the future of the College and our ability to attract a world class pool of candidates.

I'd like to thank those listed below who have agreed to serve on the Dean Selection Advisory Committee. The Committee will be ably led by Dean Willie M. Reed of Purdue's School of Veterinary Medicine.
