Report on the HHS Undergraduate Educational Policy and Curriculum Committee

Tom Berndt, Committee Chair
Measuring Progress Toward Our Goal of Increasing Students’ Success

• Increasing 2-year retention rate by 2% (to 90%)

• Increasing 4-year graduation rate by 4% (to 65%)

• Assessing undergraduates’ participation in transformative educational opportunities such as Learning Communities and involvement in research
Measuring Progress Toward Our Goal of Increasing Students’ Success (cont’d)

- Increasing Study Abroad participation by 5%
- Sustaining or improving students’ job placement or enrollment in advanced study
Measuring Progress Toward Our Goal of Increasing Undergraduate Enrollment

• Increase HHS Fall 2016 freshman enrollment to 775 (from 674 this year)
• Increase enrollment of transfer students and net CODOs
• Increase freshman URM enrollment by 2% above the campus average
• Monitor the achievement of entering students
Other Work to Improve Student Success

• Steps in the assessment of students’ achievement of the Embedded Student Learning Outcome of **Communication**:
  – Define the outcome for specific majors
  – Describe how students will demonstrate learning
  – Document students’ learning and compare their learning with a pre-set target
  – If target is not met, present a plan to improve learning
