Faculty Rightsizing

An initiative of the Office of the Provost

“The Provost…seeks to determine the optimal faculty size for the college and the need to maintain, reduce or increase faculty size.”

• College rightsizing data will be provided to the dean.

• Optimal faculty size will be reviewed annually. In the first year (FY 16-17), there may be significant adjustments. Future adjustments will be more limited, primarily focusing on sustained areas of growth or areas of declining enrollment or relevance.
Faculty Rightsizing

• Criteria for Decisions
  • Historical trend of filled faculty lines
  • Student-to-faculty ratio
  • Historical enrollments (graduate and undergraduate)
  • Credit hours taught (graduate and undergraduate)
  • Historical trend in sponsored program awards and expenditures
  • Sponsored program awards per faculty
  • College/school specific metrics
  • Strategic priorities
