Internship

The Scoutreach Program has hours available for internships in the fields of Education, Criminal Justice, Social Work, Sociology and Psychology

- The program is designed to help give young youth skills in leadership, teambuilding, and creative thinking. The Scoutreach program directly works with elementary students.

- As an intern in the Scoutreach program, you will have the responsibility to facilitate weekly meetings at local elementary schools. You will be working 1-2 hours a day after school (3:00-5:00 p.m.).

- Interns work directly with youth teaching them life skills which they will use on a daily basis. Interns will also plan and initiate a curriculum of activities for the youth while working closely with the Scoutreach Director.

- This is a great way for you to brush up on organizational and public speaking skills. In addition, the internship helps build teaching skills while working with youth. The Scoutreach program internship has weekly hours; we ask for students who are interested in committing an entire school year for this position.

If you have interest in this internship please call

Colin Earl
Scoutreach Director
