PSY 390 Research Opportunity  
**Fall 2015**

**Faculty member or graduate student**  
Faculty: Sang Eun Woo  
Graduate Student: Rachel Saef

**Description of research area**  
- Personality predictors in the workplace (especially Openness to Experience)  
- Group diversity, cross-cultural communication, trust/trustworthiness perceptions, and prejudice at work  
- Personality measurement

**Description of undergraduate participation**  
Students will mainly assist with data collection (e.g. running experiments), coding, and have the opportunity to learn about doing a literature review and data analysis. They will also be expected to participate in a weekly research meeting.

**Research setting (listed in order of expected frequency)**  
- Data collecting in a designated lab space (it may involve assisting with running experiments, and administering paper-pencil or online survey sessions)  
- Data coding (e.g., transcribing participants’ responses on paper-pencil questionnaires into excel spreadsheets; evaluating quality of participants’ performance on a task)  
- Library search (mostly online, but sometimes manual)

**Number of assistants needed**  
4-5

**Contact information**  
Please contact Rachel at rsaef@purdue.edu if you have any questions or would like more information.

**Additional comments**  
- Minimum GPA required: 3.0  
- Major in Psychology or related fields  
- Preference for students to enroll in 3 credit hours  
- Although not a requirement, preference is given to students who have taken research methods and PSY 272: Introduction to IO Psychology
