Definitions

Coinsurance – After you've reached your deductible, you and your plan share some of your medical costs. The portion of covered expenses you are responsible for is called coinsurance.

Copay – A flat fee you pay for certain covered services such as doctor's visits or prescriptions.

Deductible – A flat dollar amount you must pay out of your own pocket before your plan begins to pay for covered services.

Direct access to obstetricians and gynecologists – You do not need prior authorization from the plan or from any other person (including a primary care provider) in order to obtain access to obstetrical or gynecological care from a health care professional in our network who specializes in obstetrics or gynecology. The health care professional, however, may be required to comply with certain procedures, including obtaining prior authorization for certain services, following a pre-approved treatment plan, or procedures for making referrals. For a list of participating health care professionals who specialize in obstetrics or gynecology, visit www.myCigna.com or contact customer service at the phone number listed on the back of your ID card.

Out-of-pocket maximum – Specific limits for the total amount you will pay out of your own pocket before your plan coinsurance percentage no longer applies. Once you meet these maximums, your plan then pays 100 percent of the "maximum reimbursable charges" or negotiated fees for covered services.

Place of service – Your plan pays based on where you receive services. For example, for hospital stays, your coverage is paid at the inpatient level.

Selection of a primary care provider – Your plan may require or allow the designation of a primary care provider. You have the right to designate any primary care provider who participates in the network and who is available to accept you or your family members. If your plan requires designation of a primary care provider, CIGNA may designate one for you until you make this designation. For information on how to select a primary care provider, and for a list of the participating primary care providers, visit www.myCigna.com or contact customer service at the phone number listed on the back of your ID card.

For children, you may designate a pediatrician as the primary care provider.

Transition of care – Provides in-network health coverage to new customers when the customer's doctor is not part of the CIGNA network and there are approved clinical reasons why the customer should continue to see the same doctor.

Maximizing your health care dollars

Log on to myCIGNA.com for resources to help you choose a health care professional or compare the cost and quality of medical services, medications and hospital care.

When you need a medical service or procedure, CIGNA offers you opportunities to save on prescription medicine, routine medical care, laboratory services, radiology scans, and outpatient surgery. Details are below:

Lab – Save on lab services by using a free-standing laboratory instead of a hospital- or clinic-based lab.

Urgent care – For non-emergency conditions that need attention before you can see your doctor, you can save money by going to an urgent care center instead of an Emergency Room (ER).

Convenience care – For minor or routine conditions, go to a Convenience Care Clinic when your doctor is unavailable. Convenience Care Clinics are retail-based and often found in pharmacies or grocery stores.

Radiology – Costs for MRIs, PET, and CT scans can vary greatly. Non-hospital based outpatient radiology centers often cost much less than a hospital. CIGNA's network includes both hospitals and outpatient centers, so you can find a radiology center that's right for you.

Outpatient surgery – Costs for colonoscopies, arthroscopies, and other outpatient procedures can vary greatly. Using a free-standing outpatient surgery center can save hundreds of dollars.

Exclusions

What's Not Covered (*not all-inclusive*):

Your plan provides coverage for most medically necessary services. Examples of things your plan does not cover, unless required by law or covered under the pharmacy benefit, include (but aren't limited to):

- Services provided through government programs
- Services that aren't medically necessary
- Experimental, investigational or unproven services
- Services for an injury or illness that occurs while working for pay or profit including services covered by Worker's Compensation benefits
- Cosmetic services
- Dental care, unless due to accidental injury to sound natural teeth
- Infertility Services
- Reversal of sterilization procedures
- Genetic screenings
- Obesity surgery and services
- Non-prescription and anti-obesity drugs
- Custodial and other non-skilled services
- Weight loss programs
- Hearing aids
- Acupuncture
- Treatment of sexual dysfunction
- Telephone, email and internet consultations in the absence of a specific benefit
- Eyeglass lenses and frames, contact lenses and surgical vision correction

These are only the highlights

This summary outlines the highlights of your plan. For a complete list of both covered and not-covered services, including benefits required by your state, see your employer's insurance certificate or summary plan description -- the official plan documents. If there are any differences between this summary and the plan documents, the information in the plan documents takes precedence.
