**OIGP Social Justice Seminar Series**

**Food Insecurity: Describing the Situation and Becoming Part of the Solution**
6:00 pm | Lyles Porter 1160
Food insecurity is a reality for 14% of all US households and approximately 20% of households with children. The inability to obtain acceptable food in socially acceptable ways that defines food insecurity is similarly prevalent in Indiana at 14% of all households. Food insecurity has been linked with negative dietary and health outcomes. These outcomes along with food insecurity are targeted to be improved by national and local food assistance programs. New interventions, links with the local foods movement, and Extension programs have potential for reaching food insecure families and communities with a high prevalence of food insecurity. This seminar offers a conversation about hunger and food insecurity basics in the US, as well as how you can make a difference in your local community to address these issues.

The Social Justice Series, hosted by the Office of Interdisciplinary Graduate Programs, serves as a forum for furthering a scholarly and social exchange of ideas for graduate students. The Social Justice Seminar Series engages graduate students from across campus in its endeavor to further its interdisciplinary reach and expand the diverse and inclusive goals guiding its mission. Topics have included, but are not limited to, housing the hard to serve, water treatment in rural communities, sexual violence on college campuses, and racial injustice in higher education.

Please click here to RSVP by Monday, Oct. 19th at 5:00 pm.

   **#Liberation: Social Justice/Media**
   6:30 – 8:00 pm  |  Krannert Auditorium

Join us for this exciting panel discussion! Social media activism has emerged in recent years as a new and frequently debated form of engaging social justice. Some question the efficacy of social media activism, referring to it as “slacktivism.” It seems clear that social media activism is here to stay as activists and every-day-people use social media to shine the light on oppression in real time. As the impact of social media continues to expand, our diverse and intersectional communities must explore and understand how it can be utilized to achieve #Liberation.

Sponsored by: **LGBTQ Center**

19. **AISES Travel Grant for National Conference**  
   Application Deadline: October 22

The American Indian Science and Engineering Society (AISES) along with other minority professional engineering society partners was awarded a National Science Foundation (NSF) grant to increase the diversification of the engineering professorate. To realize this goal, AISES will engage Native American early-career faculty, post-doctoral professionals, and graduate students in all engineering fields. This engagement will support participant professional development and expansion of their professional networks.

With the support of the ASSIST grant, AISES will be able to bring together up to 40 engineering early-career faculty, post-doctoral professionals, and graduate students at the AISES National Conferences for the next four years. At the National Conference, AISES will deliver professional development workshops on a variety of topics from understanding academic career opportunities, demystifying promotion and tenure, to grant proposal writing and review process, as well as navigating academia as Native people and engineers. To provide these opportunities, AISES will engage Native academic leaders and federal funding agencies to support the success and persistence of diversity in the engineering academic career pathways.

    **2016 Focus Program – Georgia Tech Graduate School Weekend**  
    Application Deadline: October 31  
    Atlanta, Georgia

This three day event is designed to attract the best and brightest underrepresented minority students and encourage them to pursue graduate studies.

Focus provides an opportunity to:

- Learn about Georgia Tech's graduate degree programs
- Gain insight into available financial resources
- Visit academic units, studios, and research laboratories
- Obtain assistance with the graduate school application process

The Colleges of Architecture, Computing, Engineering, Business, Sciences and the Ivan Allen College of Liberal Arts are actively seeking scholars to participate in Focus 2016. Visit the website [www.focus.gatech.edu](http://www.focus.gatech.edu). Our preference is to invite juniors and seniors with high academic standing. Participation is limited. Lodging accommodations, meals and transportation subsidies will be provided for the participating scholars. Please read the travel information under FAQs at the website for complete details.
21. **Farm Bill Wildlife Biologist (4 positions)**  
   Pheasants Forever & Quail Forever  
   The Habitat Organization  
   Application Deadline: October 26

Work in a joint capacity with USDA Natural Resources Conservation Service (NRCS) and other partners to promote, accelerate enrollment, coordinate and implement the conservation provisions of the Federal Farm Bill and other related wildlife conservation programs. Positions will be housed in USDA Service Centers. Activities will include program promotion (workshops, one on one meetings), contract coordination, conservation planning and other technical assistance, site assessment and reporting. Provide technical biological assistance for wildlife habitat enhancement techniques to private landowners and public organizations. Meet with local chapters of Pheasants Forever (PF) and Quail Forever (QF) and other local partners to influence habitat management efforts and participate in regional and statewide habitat meetings. Assist or coordinate activities and projects with other PF, QF, and NRCS staff. This position will be an employee of, and supervised by Pheasants Forever, Inc., with daily instruction and leadership provided by NRCS.
