PURDUE CAMPUS-WIDE ANNOUNCEMENTS AND EVENTS

7. Tuesday, January 19
Martin Luther King Keynote Address: Freeman A. Hrabowski III
7:00 pm | LOEB Playhouse, STEW

Mathematician, educator and inspirational leader, Freeman Hrabowski serves as president of the University of Maryland, Baltimore County — which he has transformed into an academic powerhouse that graduates STEM majors of all races. His research and writings focus on innovating American schools, with special emphasis on minority participation and performance.

As a child in Birmingham, Alabama, he marched in the Children’s Crusade of 1963, a pivotal civil rights campaign.

Among his many honors, in 2012 Hrabowski was named chair of the President’s Advisory Commission on Educational Excellence for African Americans.

    MBLGTACC 2016: Introspection at the Crossroads
    Stewart Center

    The Midwest Bisexual Lesbian Gay Transgender Ally College Conference (MBLGTACC) is the largest student-led LGBTQIA college conference in the nation. It is a weekend long event that combines educational opportunities, professional development and networking, and social events. During this event attendees will have the opportunity to hear three keynote addresses and attend a variety of educational workshops.

    More information about MBLGTACC 2016, including speakers, workshops, and conference schedule and registration, can be found here.

    Sponsored by: Crossroads Coalition, LGBTQ Center, Office of Diversity and Inclusion

PROGRAMS, INTERNSHIPS AND EMPLOYMENT

    Application Deadline: January 22

    PEM offers summer fellowship opportunities for graduate students and cultural professionals of Native American, Native Hawaiian or Alaska Native background. These paid, full-time, 10-week fellowships prepare participants for leadership positions in the museum field and/or the nonprofit cultural sector. The program presents a comprehensive perspective on the theory and practice of museum leadership, in the context of a meaningful, in-
depth project within a department of the museum. Weekly intensive workshops, field trips, lodging, travel expenses and a stipend are included. School credit is available upon official request.

For more information and application, click here.

13. Microsoft Scholarship
Application Deadline: January 31

Microsoft awards college tuition scholarships each year to encourage students to pursue studies in Computer Science and related STEM (Science, Technology, Engineering, and Math) disciplines. Recipients will be awarded in recognition of their demonstrated passion for technology, academic excellence and leadership while working to push the software industry forward.

We strongly encourage underrepresented groups to pursue STEM fields of study. Because we greatly value a broad range of perspectives and contributions, a large majority of our scholarships will be awarded to female students, underrepresented minority students (African-American, Hispanic or Native American etc.) or students with disabilities. We will review all applications and select final candidates on the holistic basis of eligibility, quality of application, demonstrated passion for STEM, commitment to leadership and financial need.

14. Summer Research Initiative – University of Maryland
Application Deadline: February 10

The Summer Research Initiative (SRI) was created in 1999 by the Office of the Dean in the College of Behavioral and Social Sciences (BSOS) and is supported by the Office of the Provost, the Graduate School, the Office of the Vice President for Research and the College. The program is designed to encourage and enhance the diversity of scholars working in the social and behavioral science fields.

In that spirit, we are interested in receiving applications to the program from a broad spectrum of students, including African Americans, Latino/Hispanics, American Indian/Alaskan Natives, Native Hawaiians or other Pacific Islanders, as well as students with research interests related to diverse communities.

The goals of the SRI are to:

- Increase the knowledge of, and interest in, doctoral-level training in the social, behavioral, and economic sciences;
- Provide rising juniors and seniors an opportunity to learn about graduate studies and the range of research and scholarship in the social, behavioral and economic sciences at the University of Maryland;
- Provide a laboratory experience that enhances basic research knowledge and skills;
- Provide lectures, workshops, didactic exchanges and other programming to enhance students' knowledge of the graduate application process, negotiating the academic rigors and professional and personal challenges encountered in graduate school, and developing career paths in social, behavioral and economic sciences; and
- Provide mentoring and networking opportunities for students to advance their training in the social, behavioral and economic sciences.

The SRI is part of the College's longstanding commitment to increasing the number of underrepresented minorities who pursue graduate degrees in the social, behavioral and economic sciences. According to data from the National Science Foundation, the university ranks 8th in the country in the number of doctoral degrees awarded and 13th in the number of Bachelor of Arts degrees awarded to underrepresented minority students in those fields. The Summer Research Initiative is an integral part of our efforts.
