*Journey to the Dreaming: An Overview of Australian Aboriginal Culture, Knowledge and History*

Tuesday, April 19 | 6:00 - 7:30 pm | STEW 279

The Dreaming is the core of Aboriginal life and spirituality. It is a religious doctrine, which promotes harmony, unity and is a celebration of life, nature and the environment. The Dreaming is the guideline setting down the path and direction through stories, ceremonies, and rituals that enshrine Aboriginal cosmology. This direction passed from generation to generation for upwards of sixty thousand years and ensured the continuity of life very much in the here and now. As Professor W.E.H. Stanner proclaimed ‘One cannot fix the Dreaming in
time; it was and is everywhen'.

The Dreaming is, was and always will be. In 1788 the Dreaming suffered a seismic collision with the arrival of the British. The Aboriginal world confronted invasion, occupation, dispossession, cultural destruction, segregation and assimilation.

The discussion will journey across the last sixty thousand years and despite the catastrophic impact of 1788 we are Dreaming still.

Co-sponsored with the African American Studies Program.

Birth of Protest, Directed by Sonita Surratt

When did it happen? At infancy, the moment we took our first breath in protest of that slap on the bottom? Emphatic cries of hunger before we could shape words? Righteously protecting younger siblings from neighborhood and cyber bullies or when thousands stand shoulder to shoulder as one VOICE in response to a dropdown menu of “isms?” Protest is our biological alarm that sounds when ‘something is off’, a panic leaps into our throat, a call to courageously refute injustice and inhumanity resounds in our heart. When did you RECOGNIZE it, HEAR it, FEEL it, SEE it. Sponsored by: Black Cultural Center
