GEOTECHNICAL ENGINEERING MASTER’S STUDENTS
SUMMER INTERNSHIP OPPORTUNITIES

Summer Internship positions are available for Master’s level Civil Engineering students specializing in Geotechnical Engineering and who have completed at least one semester of graduate studies. Positions last from May 2016 through August 2016. Responsibilities include:

- assisting project managers and geotechnical engineers with a variety of geotechnical projects;
- planning and scheduling drilling and geotechnical investigation projects;
- performing specialized geotechnical field and laboratory testing; and
- evaluating soils and construction materials.

Excellent communication, report writing, and personal relations skills required. Ability to work independently and as part of a team is essential. EIT preferred.

To be considered, you must have a U.S. driver’s license and a good driving record and must be able to comfortably lift and carry equipment and samples weighing up to approximately 50 - 60 pounds. Your intern experience begins with an orientation/training period followed by on-the-job training with full-time SME team members. You will get exposure to a wide variety of geotechnical engineering projects. You will also have the opportunity to work and interact directly with design professionals, construction managers, and contractors.

SME offers a competitive hourly wage and overtime. In addition, we provide $500 per month for housing, a $60 per month smartphone allowance and up to $100 reimbursement for steel-toed workboots. Our interns also get the opportunity to meet and network with SME engineers and interns from our other offices at our summer outing.

SME, with over 50 years of engineering excellence, provides consulting services in the geosciences, materials and the environment. SME is ranked among ENR’s top 500 design firms. We serve markets in the built and natural environment, including Transportation, Development/Redevelopment, Education, Energy, Healthcare, Commercial, Industrial, Retail, State/Local Government, and Agriculture. Headquartered in Plymouth, Michigan, SME has regional offices in Bay City, Detroit, Grand Rapids, Kalamazoo, Lansing, Shelby Township, and Traverse City, Michigan; Cleveland and Cincinnati, Ohio; and Indianapolis, Indiana. SME serves clients locally and around the world by providing practical, sustainable solutions to challenging site, building and infrastructure problems.
