

Games of Chance Policy

Student organizations under the fiscal supervision of the Business Office for Student Organizations may not conduct games of chance on or off campus. Games of chance include, but not limited to: bingo games, raffles, charity game nights, door prize events, or festivals that include prizes from pull tabs, punch boards, or tip boards.

Games that require some level of skill are allowable. Examples of games of skill include: guessing the number of jelly beans in a jar, basketball shooting contest, tossing a bean bag through a loop, etc. Special note: Casino-type games (e.g., blackjack, poker, craps, etc.) are considered games of chance, not skill.
