Active Registration PWL
Updated 1/13/11

Description: Some of the tables that are contained in the Active Registration PWL Package are Enrollment, Academic Study, Advisor, Person Detail, Student, Student Course and Student Course Attribute.

Useful for: This package is useful for creating reports regarding Grades, Registration Activity, Academic Study, Student Course, Course Enrollment, and Advisor Information.

Filters:

Need	Filters
Student registered for at least one section (including students auditing a section)	[Active Registration].[Academic Study].[ENROLLED_IND] = 'Y' and [Active Registration].[Academic Study].[REGISTERED_IND] = 'Y'
When you are including academic study information for a student (i.e. college, major or classification), in order to return only one line per student, you need to add this filter.	[Active Registration].[Academic Study].[PRIMARY_PROGRAM_IND]='Y'
If you want to list only the sections which are gradeable (i.e. the Lecture part of a multi-subpart class), you need to add this filter. The NULL value is necessary as well because we have some courses that are listed as NULL if they are study abroad courses or converted from the legacy system.	[Active Registration].[Student Course].[GRADABLE_IND] ='Y' or [Active Registration].[Student Course].[GRADABLE_IND] is null
If you want all registered students (including those auditing the classes) add this filter.	[Active Registration].[Student Course].[REGISTRATION_STATUS] in ('AU','RE','RW')
If you want all registered students (excluding those auditing the class) add this filter.	[Active Registration].[Student Course].[REGISTRATION_STATUS] in ('RE','RW')

Key Variables:

Supporting Banner Tables: Please use the link to the metadata on the OnePurdue Student Reporting Webpage to determine Banner Tables supported by packages/models.

Metadata URL: https://www.purdue.edu/onepurdue/about/secure/banner_ods/metadata/ODS_index.html

Supporting Documentation

There is supporting documentation located on the OnePurdue Student Reporting website located at http://www.purdue.edu/onepurdue/ESA/reporting.shtml

Validated Reports:

Report	Description	Path
Grade Distribution	Show the grade distribution within a CRN or entire course. This report lists count of students who received a particular grade and the percentage of students receiving that grade.	Public Folders – PROD > Student – PWL > Validated > Grades
Grade Statistics	Metrics for end-of-term grade processing.	Public Folders – PROD > Student – PWL > Validated > Grades
Missing Grades	List of sections with missing grades. Schedule Deputies may use this report to ensure all their department's instructors have entered grades before grade entry is turned off.	Public Folders – PROD > Student – PWL > Validated > Grades
Course Roster	List students in sections. Total enrollment of the section is listed, however the total does not include withdrawn students. Withdrawn students are shown with a gray background . If a student received a registration override, the type of override is listed on this report.	Public Folders – PROD > Student – PWL > Validated > Registered Students
List of Students by Advisor	List of Students by Academic Advisor	Public Folders – PROD > Student – PWL > Validated > Registered Students
List of Students by Curriculum	List of registered students by college, major, minor. All curriculums are evaluated; not just the primary program. Fields listed are student's name, PUID, campus, college, major, minor, concentration, program, classification, level, second major, second minor.	Public Folders – PROD > Student – PWL > Validated > Registered Students
Student Course Schedule	Display the student's course schedule in either an Official Registrar format or an excel list. The Official Registrar format can be used during advising sessions with a student.	Public Folders – PROD > Student – PWL > Validated > Registered Students
Student Schedule Availability	Display a grid by time of day and day of week, counting the number of students taking a class at that time. Only students enrolled in the requested course or CRN will be counted. This report is useful to determine office hours for instructors or other non-course activity.	Public Folders – PROD > Student – PWL > Validated > Registered Students
Withdrawn Student Report	List students officially	Public Folders – PROD > Student –

	withdrawn from the university. These students have gone through the Dean Of Students Office to withdraw from the University.	PWL > Validated > Registered Students
Course Enrollment by College	Report has course enrollments by college with only students who are registered or are auditing courses. Note: only students' primary programs are included in the count.	Public Folders – PROD > Student – PWL > Validated > Registration
Course Enrollment by Course	Report has course enrollments by Course and student classification.	Public Folders – PROD > Student – PWL > Validated > Registration
Course Enrollment History by Student Curriculum	Enrollment within courses by the student's college and major, across multiple academic periods.	Public Folders – PROD > Student – PWL > Validated > Registration
Registration Activity Report	Activity during registration process.	Public Folders – PROD > Student – PWL > Validated > Registration
Section Enrollment by Subject	This report provides section enrollment by subject.	Public Folders – PROD > Student – PWL > Validated > Registration
AP Scores Report	AP test score results for Registered Students.	Public Folders – PROD > Student – PWL > Validated > Grades
Transfer and Advanced Placement Credit Report	Transfer Course and CLEP placement results for Any Student.	Public Folders – PROD > Student – PWL > Validated > Grades
