

Student Applications Advisory Committee

Scope and Purpose

Representing the user community of students, faculty and staff, the Student Applications Advisory Committee provides input and suggestions for improvements to the Student Enterprise Applications and to associated business processes. Advisory Committee members further communicate information about the Student Enterprise Applications to their constituent groups.

Responsibilities

- Provide input and feedback regarding user experience with Student Enterprise Applications. Serve as liaisons by soliciting, collecting and communicating issues and concerns from constituents and stakeholders.
- Communicate information to constituents and stakeholders regarding priorities set by the Student Applications Steering Committee for improvements, enhancements, upgrades, and new functionality.
- Advise the Process Owner regarding policy, practice, process, and procedure issues that are associated with the Student Applications.
- Recommend priority enhancements and changes to the Student Applications Steering Committee. Recommendations requiring limited resources may be referred immediately to the SunGard Competency Center.
- Establish and serve on ad hoc teams or sub-committees as needed.

Membership

The membership is made up of customers of the system and owners of the applications. Appointments shall be for two years.
