

INTRAMURAL SPORTS

Compete with your friends

HOW DO I GET INVOLVED?

Intramural Sports is one of the most popular ways to get involved with your fellow Boilermakers. You compete in 29 different activities throughout the year, against members of the Purdue Community, and it is easy to get involved!

Go to our website to learn the registration dates for the sports that you want to compete in. Click on the rules page to find out the required numbers of players needed to form a team. Get together with fellow members of your residence hall, fraternity, sorority, cooperative, or just a group of friends and pick a captain. The captain completes the registration form, instant schedule, and payment process at TREC.

WHAT IS THE COMMITMENT?

Our league sports offer a three week regular season and a single elimination playoff. During the regular season each team will be scheduled to play on the same day at the same time for no more than one hour. Our tournament sports consist of several one day single elimination tournaments that last no more than three hours.

BE AN OFFICIAL

Do you need a job that is flexible, works around your schedule, and is fun? Then be an official! We employ over 250 intramural sports officials every year in flag football, soccer, volleyball, basketball, and softball. Attend one of our call-out meetings to get more information.

No experience is needed.
