myPurduePlan for Students – What-if Worksheets

How do I process a What-if worksheet?

☐ Learn how to use the What-If worksheet.

*What-If worksheets* are used to process hypothetical degree worksheets for a student using their current class history. To access the What-if screen, click the What-If tab located on the worksheet page.

You can review your worksheet against the requirements for a different major, minor, concentration, degree, or catalog term (the term that you started at Purdue) on the *What-If worksheet* screen. To generate a *What-If worksheet*, select the requirements that you want to review. The selected items will be moved to the window on the right. To deselect an item from the window, highlight the item then click the *Remove* button located below the window. Click on the *Process What-If* button.

When generating the requirement criteria for a *What-If worksheet*, it is important to make sure that only valid combinations are entered in the requirement selection criteria drop-down list boxes. **Note: The following data elements are required to ensure a complete worksheet is populated:** Level, Degree, Catalog Term, Major, College. You must change the information in each of these boxes in order to produce the What-if scenario you are seeking.
