

FACULTY POSITION IN THE DEPARTMENT OF MECHANICAL ENGINEERING, UNIVERSITY OF HARTFORD. Applications are invited for a full-time tenure-track position at the rank of Assistant Professor beginning August 2007.

Candidates should have a background in the general area of acoustics and vibrations. They will be expected to teach a variety of undergraduate and graduate courses in Vibrations, Acoustics, Noise Control Design, as well as mechanics and design-related courses within the Mechanical Engineering Department. University of Hartford faculty are expected and encouraged to excel in teaching, maintain scholarship through research and publication, and provide service to the department, the college, the university, the community and the profession. The University of Hartford consists of seven colleges, including the Hartt School (music and performing arts), the Hartford Art School, the Barney School of Business and the College of Arts & Sciences. The College of Engineering, Technology, and Architecture has departments of Mechanical Engineering, Civil/Environmental/Biomedical Engineering, Electrical/Computer Engineering, and Architecture.

The Mechanical Engineering Department offers an EAC/ABET accredited BS degree in Mechanical Engineering, a BSME degree with optional concentration in acoustics, and a BS degree in Mechanical Engineering Technology. It also offers a unique Interdisciplinary Bachelor of Science in Engineering major in the Acoustics and Music program. At the graduate level, the mechanical engineering department offers a Master's degree in Mechanical Engineering including a new graduate program in turbo-machinery. Successful candidates will also have an opportunity to work in the College's new Acoustics Laboratory, which includes both reverberation and anechoic chambers. The Lab is part of the Engineering Applications Center, which provides students and faculty the opportunity to work with industrial partners to solve real-world problems.

Candidates must hold an earned doctorate in engineering or related science with a specialty in Acoustics. Consideration of applications will begin immediately, and applications will be accepted until the position is filled. Applications including a current curriculum vita and the names of at least three references with contact information should be sent to: Prof. R. Celmer, Chair, Search Committee, Mechanical Engineering Department, University of Hartford, 200 Bloomfield Avenue, West Hartford, CT 06117-1599. Members of under-represented groups are encouraged to apply. EEO/AA/M/F/D/V
