

◆ Agribusiness Tour ◆

Type of Event

Academic

Estimated Cost

between \$400 - \$600 (depends on number of participants)

Business Needs

Learning Communities Credit Card
Transportation Request

Trip Notes

In 2009 the following places were visited: Purdue Aquaculture Center, Fair Oaks Dairy, Benton County Windfarms, Indiana Nature Conservancy, and Chuck Hannon of the DMV to arrange tours.

For this trip, you may need to purchase admission tickets so consider that when budgeting as well as food for the students to eat. The best option is to go to a local grocery store and get snacks for the bus/van ride. (or plan a picnic of some sort at one of the locations if acceptable)

Business Notes

- Transportation: Remember that we will need a street address, pick up/drop off times and locations, and number of passengers including LCIs.
- Weather: This is a tour so weather may play a factor in the outcome of your participants but also the arrangements with the locations. Make sure to ask if there are inside and outside tours if needed.
- Admission Tickets: The Business Office can make the arrangements for purchasing the tickets as long as you know the exact number of those attending.
- Food: Food can be purchased at the location as long as they take a credit card. This may be something you will want to check up on prior to arranging it.
