TO: The University Senate Educational Policy Committee
FROM: Educational Policy Committee
SUBJECT: Request to modify the current policy of Committee on Scholastic Delinquencies and Readmissions
DISPOSITION: University Senate for Action
CAMPUSES: West Lafayette and Technology Statewide only

RATIONALE:
- Considering the vast majority of applications for readmissions are approved by the existing committee, it was suggested to modify this to follow the process established for reentry applications. The current process is for the college to review and make a decision. The CSDR would then make a determination. It was recommended that the college be the final decision maker and CSDR only review denials by the college if the student has new and compelling information that would affect that decision.
- The size of the committee is being changed to make it more nimble in denial of readmission hearings.
- Length of term is being adjusted to reduce any burdensome committee for faculty members.

CURRENT with recommended changes in red/strikethrough
