Section D – Applicant Affirmation

The above information is accurate and true. I will follow policies and procedures established by Purdue University for access to the irradiator. I will keep the keys secure and I will not disclose my access code to anyone.

Applicant Signature: _____ Date: _____

Section E – PI/Supervisor Declaration

The applicant has demonstrated a need to use an irradiator for teaching or research and has demonstrated trustworthy and reliable behavior.

PI/Supervisor Signature: _____ Date: _____

PI/Supervisor Name (Print): _____

PURDUE UNIVERSITY
10 CFR Part 37 Compliance

Consent for Background Investigation

I authorize and grant my consent to Purdue University, to request the U.S. Nuclear Regulatory Commission (NRC), under Section 652 of the Energy Policy Act of 2005, to request criminal record information about me from the U.S. Attorney General, who will refer the request to the Federal Bureau of Investigation. I understand that the purpose of this information is solely to enable Purdue University to determine my trustworthiness and reliability for unescorted access to a Category 2 or greater quantity of radioactive material as defined in the NRC's regulations in Title 10 of the Code of Federal Regulations (10 CFR) Part 37, "Physical Protection of Category 1 and Category 2 Quantities of Radioactive Material." I understand that Purdue University must obtain my signed consent before any investigation or reinvestigation to determine my trustworthiness and reliability for such unescorted access.

I authorize and grant my consent to any authorized representative of Purdue University who is conducting my background investigation or reinvestigation, as defined in 10 CFR 37.25, "Background Investigations," to obtain any information related to my activities from individuals, schools, residential management agents, previous employers, criminal justice agencies, or other sources of information. This information may include, but is not limited to, my academic, residential, achievement, or performance information and information about my attendance, disciplinary, employment, and criminal history records. I authorize Purdue University to share personal information with other individuals or organizations as necessary to complete the background investigation.

I authorize the Federal Bureau of Investigation to disclose the record of my criminal history background investigation to Purdue University for the purpose of making a determination of my trustworthiness and reliability for unescorted access to a category 2 or greater quantity of radioactive material. I understand that before making any determination to deny me this unescorted access, Purdue University will provide me a copy of the information on which it intends to base that determination. I further understand that before a final adverse determination, Purdue University must give me an opportunity to correct any inaccurate or incomplete information that is developed during the background investigation.

I understand that I may withdraw my consent at any time and that after I do withdraw my consent, under 10 CFR 37.23(c) of the NRC's regulations, Purdue University may not initiate any elements of the background investigation that were not in progress at the time that I withdrew my consent. I also understand that, under 10 CFR 37.23(c), the withdrawal of my consent for the background investigation is sufficient cause for denial or termination of any authorization for unescorted access.

I understand that, for previous employers and other sources of information, separate specific releases may be needed and that I may be contacted for such releases at a later date. I authorize custodians of records and other sources of information pertaining to me to release such information upon request of the investigator or other duly authorized representative of the company regardless of any previous agreement to the contrary.

I understand that the information released by records custodians and other sources of information is solely for the purpose of making a determination about my trustworthiness and reliability for unescorted access to the radioactive materials subject to 10 CFR Part 37 and that this information may be disclosed only as authorized by State or Federal law.

I understand that photocopies of this authorization and consent document with my signature are valid and that this authorization will remain in effect as long as I am authorized to obtain unescorted access to the radioactive material subject to 10 CFR Part 37.

Applicant Signature: _____ Date: _____
(Sign with Ink)

REM Use Only

Criminal History
 Applicant has been properly fingerprinted, and criminal history record has been received.
 Criminal history analysis:

Identity
 The applicant's identity was verified to ensure applicant they are who they claim to be.
 Certify that the identification document was properly reviewed:

Education
 The education claimed was verified.
 Notes:

Employment
 The employment history was verified.
 Notes:

Corroboration
 Obtained independent information to corroborate the information provided by individual
 Notes:

References
 References were contacted to determine the character and reputation of the individual.
 Notes:

Trustworthiness
 Our research indicates the applicant is trustworthy and reliable. If our records indicate the applicant **may not** be trustworthy and reliable, prior to an adverse decision, allow the applicant to complete, correct, and explain any information obtained from the investigation.

Reviewing Official	Signature	Date

Basis for concluding whether or not there is reasonable assurance individual is Trustworthy and Reliable:
