Credit Hour Computations Using No Substitutes

The Student CRF will now take into consideration courses that are marked as 'No Subs' from the Advisor CRF when computing minimum and maximum requested credits. This means that substitute courses will not replace any course marked as a no sub. Ultimately, this reduces the number of courses the solver can consider because it will exclude those courses marked as no substitute. This may reduce the number of credit hour override requests advisors will see.

1) The first four priorities marked as no-sub (same numbers as total priority credit).

Min: 4 cr CS 18000GLD
  + 1 cr CS 19100
  + 1 cr CS 19300
  + 4 cr MA 16500
  + 3 cr SCLA 10100
  + 3 cr EAPS 10600 or EAPS 10000 or CSR 10300 (Substitute)
    16 credits

Max: 4 cr CS 18000GLD
  + 1 cr CS 19100
  + 1 cr CS 19300
  + 5 cr MA 16100
  + 4 cr ENGL 10600
  + 3 cr EAPS 10600 or EAPS 10000 or CSR 10300 (Substitute)
    18 credits

The 3 cr CSR 10300 substitute can be an even exchange in Priority 6 since they are the same number of credit hours.

2) The first three priorities marked as no-sub (student can get the 3 credit CSR 10300 for 4-5 credit MA course, so the minimum is now 15).

   + 5 cr MA 16100
   + 4 cr ENGL 10600
   + 3 cr EAPS 10600 or EAPS 10000
18 credits

The 3 cr CSR 10300 goes into Priority 4 to have the most impact for minimum credit computation.

3) Advisor did not mark any course as no subs, max credit 20 needs to be requested.
