

2020 has been a year
Full of death and of fear
Many lives have been lost
The World paying a heavy cost

Those around have had to adjust
Relying on others and forming new trust
Friends of old have been heard
All telling stories of challenges they conquered

An ongoing fight is at hand
Notable leaders taking command
Nobel workers doing their best to keep us safe
Doing all possible the bold and the brave

Stay away from other and wear a mask
These two things are all they ask
Those who need help in their darkest hour
All are family and we all have power

We do not know how long this will last
But we must learn from the past
In a United front we will rise
Together to come back to clear blue skies
