

## Accessing the Supplemental Instruction Course & Information in Brightspace

After logging in on Brightspace ([purdue.brightspace.com](http://purdue.brightspace.com)), you should see your homepage. You can find links and information for SI sessions and office hours in the “Fall 2020 Supplemental Instruction” course. This course should automatically appear in your “My Courses” section.

### Troubleshooting and Tips

- Make sure you have “All” courses selected vs. just “Pinned” courses visible.
- For easier and quick access to courses, you can pin courses to the top of your course listings. To pin a course, go to the top right corner of the course tile and select the ellipsis button for more options. Select “Pin” to have the course moved to the top section of your course tiles.
- If you recently added a course, there may be a delay before the SI course shows up in your course tiles. The system typically updates early each morning.
- Contact the Academic Success Center at [academicsuccess@purdue.edu](mailto:academicsuccess@purdue.edu) or 765-494-4700 if you are still having issues accessing SI information in Brightspace.
