From: Mung Chiang, Dean, College of Engineering^{mc}
Date: March 3, 2022
Subj: Recommendation for Named Professorship

I am pleased to recommend that Dr. Amy Reibman be named the Elmore Professor of Electrical and Computer Engineering. Dr. Reibman's case has the full support of the Engineering Named Professorship Committee. Dr. Reibman's full vita, recommendation letters, and abbreviated vita are enclosed for your review.

Professor Reibman is an accomplished researcher in the fields of image/video processing and transport over wireless communication systems. She pioneered the widely-adopted multiple description coding (MDC) technique, which allows effective transmission of images and videos over channels where data can be easily lost.

Dr. Reibman has over 60 patents to her name and is an IEEE Fellow. Her work has been published in over 40 journal papers. She was the recipient of the Leonard G. Abraham Prize Paper award of the IEEE Communications Society in 1998.

Approval Recommended:

A handwritten signature in black ink, appearing to read 'Jay T. Akridge', written over a horizontal line.
