

NASA Fellowships

Please work with your respective Pre-Award center if you are planning to submit to a NASA Fellowship, for example, the NASA Earth and Space Science Fellowship (NESSF) Program. A tenured or tenure-track faculty member will need to also be named as a mentor/sponsor.

Pre-Award will assist with budget preparation, document review, and proposal submission.

Open NASA solicitations are located here, <https://nspires.nasaprs.com/external/solicitations>.

You can contact by selecting the center that corresponds with your affiliated college, <http://www.purdue.edu/business/sps/preaward/contact/index.html>.
