Re: Graduate Fee Remission Calculations  

Attached are the final graduate fee remission calculations for your review and approval. The documents provided are as follows:

2008-09 Graduate Employee Fee Remission Annual Report
2009-10 Graduate Fee Remits Granted, Recovered, and Projected Rates

For fiscal year 2010-11 calculations, the projections for future years were based on graduate student enrollment of 8050, 1% increase in headcount per pay period, 5% increase in tuition each year, and an 2.3% increase in the number individual remits granted per year. It has been decided to phase out the student paid portion of the graduate tuition over four years. The current rate shows an increase of $66 from the previous year charge rate of $657.

The following table outlines the current and proposed charge rates as well as projected charge rates for use in budgeting future year expenditures on sponsored programs:

<table>

* 2010-11 rate was put into effect at the beginning of the fiscal year (7/1/2010)
The Graduate Fee Remissions charge rate implementation process has been updated so that the new budget rate will be immediately implemented as of the beginning of the fiscal year and then adjusted for any material differences when the analysis is complete. The 2011-12 budget rate of $805 per pay period will be put into effect as of July 1, 2011. The Graduate Fee Remissions analysis will be conducted after the end of the 2010-11 fiscal year and the budget rate will be adjusted for any material difference.
